VOLUME 56
July-December, 1977

No. 1 (July)

Editorial:

Indications for Coronary Arteriography. 1
Henry D. McIntosh

George E. Brown Memorial Lecture:

Small Arteries of the Heart. 2
Thomas N. James

Original Articles:

Differentiation of Ventricular Septal Defects from Mitral Regurgitation by Pulsed Doppler Echocardiography 14
James Geoffrey Stevenson, Isamu Kawabori, and Warren G. Guntheroth

The Pulsed Doppler Coronary Artery Catheter: Preliminary Report of a New Technique for Measuring Rapid Changes in Coronary Artery Flow Velocity in Man. 18
James S. Cole and Craig J. Hartley

Exercise Testing Soon after Myocardial Infarction. 26
Walter Markiewicz, Nancy Houston, and Robert F. DeBusk

Correlation of Coronary Arteriograms and Left Ventriculograms with Postmortem Studies .. 32
Grover M. Hutchins, Bernadine H. Bulkley, Ren L. Ridolfi, Lawrence S. C. Griffith, Frederick T. Lohr, and Mark A. Piasio

Surgical Management of Life-threatening Ventricular Arrhythmias in Patients with Coronary Artery Disease. 38
William B. Ricks, Roger A. Winkle, Norman E. Shumway, and Donald C. Harrison

Sinus Node Recovery Time and Calculated Sinoatrial Conduction Time in Normal Subjects and Patients with Sinus Node Dysfunction. 43
Günter Breithardt, Ludger Seipel, and Franz Loogen

An Unusual Variety of Atrioventricular Nodal Re-entry due to Retrograde Dual Atrioventricular Nodal Pathways. 50
Delon Wu, Pablo Denes, Fernando Amat-y-Leon, Christopher R. C. Wyndham, Ramesh Dhingra, and Kenneth M. Rosen

Induction of Iatrogenic Electrocardiographic Patterns during Electrophysiologic Studies .. 60
Masood Akhtar, Anthony N. Damato, Carol J. Gilbert-Leeds, William P. Batsford, C. Pratap Reddy, Joseph A. C. Gomes, Antonino H. Calon, and Malkiat S. Dhatt

Myocardial Imaging with Thallium-201 at Rest and during Exercise: Comparison with Coronary Arteriography and Resting and Stress Electrocardiography. 66
James L. Ritchie, Gene B. Trobaugh, Glen W. Hamilton, K. Lance Gould, Kenneth A. Narahara, John A. Murray, and David L. Williams

Location and Size of Acute Transmural Myocardial Infarction Estimated from Thallium-201 Scintiscans: A Clinicopathological Study. 72
Frans J. Th. Wackers, Anton E. Becker, Gerard Samson, Ellinor Busemann Sokole, Jan B. van der Schoot, Andreas J. T. M. Vet, K. I. Lie, Dirk Durrer, and Hein Wellens

Comparison of the Cardiocirculatory Effects of Exercise and Isoproterenol in Children with Pulmonary or Aortic Valve Stenosis. 79
Nestor J. Truccone, Carl N. Steeg, Ralph Dell, and Welton M. Gersony

Congenital Heart Block in Newborns of Mothers with Connective Tissue Disease. 82
Carolyn M. McCue, Michael E. Mantakas, Jon B. Tingelstad, and Shaun Ruddy

Congenitally Complete Heart Block: Developmental Aspects. 90
Robert H. Anderson, Arnold C. G. Wenick, Tom G. Losekoot, and Anton E. Becker

Angiographic Determination of Arterial Patency after Percutaneous Catheterization in Infants and Small Children. 102
Roger A. Hurwitz, Edmund A. Franken, Jr., Donald A. Girod, John A. Smith, Wilbur L. Smith

The Effects of Left Ventricular Load and Contractility on Mitral Regurgitant Orifice Size and Flow in the Dog. 106
David M. Borgenhagen, Juan R. Serur, Richard Gorlin, Douglass Adams, and Edmund H. Sonnenblick

Effect of Colfibrate on Intravascular Coagulation in Hyperlipoproteinemia. 114
Angelina C. Carvalho, Robert S. Lees, Raymond A. Vaillancourt, and Robert W. Colman

Radiology:

Cranial and Caudal Angulation for Coronary Angiography Revisited. 119
Thomas A. Sos and Harold A. Baltaxe

(Continued)

Clinicopathologic Correlations:

Pulmonary Vascular Disease Complicating the Blalock-Taussig Anastomosis. 124
Philip J. Hofschire, Glen C. Rosenquist, Roger N. Ruckerman, James H. Moller, and Jesse E. Edwards

Letters to the Editor 127

News From The American Heart Association

A.H.A. Special Report 139A
Prevention of Bacterial Endocarditis: A Statement prepared by the Committee on Prevention of Rheumatic Fever and Bacterial Endocarditis of the American Heart Association
Edward L. Kaplan, M.D., Chairman; Bascom F. Anthony, M.D., Alan Bisno, M.D., David Durack, M.D., D. Phil., Harold Houser, M.D., H. Dean Millard, D.D.S., Jay Sanford, M.D., Stanford T. Shulman, M.D., Max Stillerman, M.D., Angelo Taranta, M.D., Nanette Wenger, M.D.

No. 2 (August)

Editorials:

Terminology of Congenital Heart Disease: Glossary and Commentary. 139
Richard Van Praagh
Insurability and Employability: Congenital Heart Disease and Innocent Murmurs. 143
Mary Allen Engle

Reviews of Contemporary Laboratory Methods:

A Critical Review of the Systolic Time Intervals. ... 146
Richard P. Lewis, Stanley E. Rittgers, Wilbur F. Forester, and Harisios Boudoulas

Original Articles:

Cardiac Malpositions: An Overview Based on Study of Sixty-five Necropsy Specimens. 159
Paul Stanger, Abraham M. Rudolph, and Jesse E. Edwards
The Application of Radionuclide Infarct Scintigraphy to Diagnose Perioperative Myocardial Infarction following Revascularization. 173
Steven C. Klausner, Elias H. Botvinick, David Shames, Daniel J. Ullyot, Noel H. Fishman, Benson B. Roe, Paul A. Ebert, Kanu Chatterjee, and William W. Parmley
Follow-up Technetium-99m Stannous Pyrophosphate Myocardial Scintigrams after Acute Myocardial Infarction. 181
Harold G. Olson, Kenneth P. Lyons, Wilbert S. Aronow, W. Theron Brown, and Robert S. Greenfield
The Extraction of Thallium-201 by the Myocardium. 188
Hellmuth F. Weich, H. William Strauss, and Bertram Pitt
Technetium-99m Stannous Pyrophosphate Myocardial Scintigraphy: Reliability and Limitations in Assessment of Acute Myocardial Infarction. 192
Michael J. Cowley, John A. Mantle, William J. Rogers, Richard O. Russell, Jr., Charles E. Rackley, and Joseph R. Logic
Correlation of Angiographic Estimates of Myocardial Infarct Size and Accumulated Release of Creatine Kinase MB Isoenzyme in Man. 199
William J. Rogers, Huey G. McDaniel, Lloyd R. Smith, John A. Mantle, Richard O. Russell, Jr., and Charles E. Rackley
Hemodynamics and Antianginal Effects of High Dose Oral Isosorbide Dinitrate After Chronic Use. 205
Daniel T. Danahy and Wilbert S. Aronow
Continued Incorporation of Circulating Radiolabeled Fibrinogen into Preformed Coronary Artery Thrombi. 213
Ali Salimi, G. Charles Oliver, Jr., Joan Lee, and Laurence A. Sherman
The Effect of Acute Coronary Artery Occlusion on Subepicardial Transmembrane Potentials in the Intact Porcine Heart. 217
Eugene Downar, Michiel J. Janse, and Dirk Durrer
Re-entrant Ventricular Arrhythmias in the Late Myocardial Infarction Period. 3. Manifest and Concealed Extrasystolic Grouping. 225
Nabil El-Sherif, Ralph Lazzara, Ronald R. Hope, and Benjamin J. Scherlag
Electrocardiographic Recognition of Sinus Node Dysfunction in Children and Young Adults. 235
Steven M. Yabek, Richard E. Swensson, and Jay M. Jarmakani
Prognostic Value of Infranodal Conduction Time in Patients with Chronic Bundle Branch Block. 240
Melvin M. Scheinman, Robert W. Peters, Gunnard Modin, Margaret Brennan, Carolyn Mies, and Judy O'Young
Left Precordial Isopotential Mapping during Supine Exercise. 245
David M. Mirvis, Francis W. Keller, Jr., John W. Cox, Jr., David G. Zettergren, Robert F. Dowdie, and Raymond E. Ideker
The Determinants of Atrioventricular Nodal Re-entrance with Premature Atrial Stimulation in Patients with Dual A-V Nodal Pathways. 253
Pablo Denes, Delon Wu, Fernando Amat-y-Leon, Ramesh Dhingra, Christopher R. Wyndham, and Kenneth M. Rosen

(Continued)

Digitalis in the Pre-excitation Syndrome: Analysis during Atrial Fibrillation. 260
T. Duncan Sellers, Jr., Thomas M. Bashore, and John J. Gallagher

Cross-sectional Echocardiography in the Diagnosis of Congenital Heart Disease: Identification of the Relation of the Ventricles and Great Arteries. 267
Walter L. Henry, Barry J. Maron, and James M. Griffith

Echocardiographic Assessment of a Normal Adult Aging Population. 273
Gary Gerstenblith, James Frederiksen, Frank C. P. Yin, Nicholas J. Fortuin, Edward G. Lakatta, and Myron L. Weisfeldt

Echocardiographic Measurement of Right Ventricular Wall Thickness: A New Application of Subxiphoid Echocardiography. 278
Haruo Matsukubo, Tohru Matsuura, Naoto Endo, Jun Asayama, Toshimitsu Watanabe, Keizo Furukawa, Hiroshi Kunishige, Hiroshi Katsume, and Hamao Ijichi

The Effect of Propranolol on Canine Myocardial CPK Distribution Space and Rate of Disappearance. 284
John A. Cairns and Gerald A. Klassen

Effect of Training on Myocardial Oxygen Supply/Demand Balance. 289
R. James Barnard, Rex MacAlpin, Albert A. Kattus, and Gerald D. Buckberg

Asymmetric Septal Hypertrophy and Myocardial Fiber Disarray: Features of Normal, Developing and Malformed Hearts. 292
Bernadine H. Bulkley, Myron L. Weisfeldt, and Grover M. Hutchins

Echocardiographic Evaluation of Fixed Left Ventricular Outlet Obstruction in Children: Pre and Postoperative Assessment of Ventricular Systolic Pressures. 299
Gregory L. Johnson, Richard A. Meyer, David C. Schwartz, Joan Korfhagen, and Samuel Kaplan

Chronic Congestive Heart Failure after Repair of Tetralogy of Fallot. 305
Albert P. Rocchini, Amnon Rosenthal, Michael Freed, Aldo P. Castaneda, and Alexander S. Nadas

Abnormal Left Ventricular Contraction Pattern in the Systolic Click-Late Systolic Murmur Syndrome. 311
Detlef G. Mathey, Pierre R. Decoodt, Howard N. Allen, and H. J. C. Swan

Effect of Increased Free Fatty Acids on Myocardial Oxygen Extraction and Angina Threshold during Atrial Pacing. 315
Gilles R. Dagenais and Bernard Jalbert

Clinicopathologic Correlations:

De Subitaneis Mortibus: XXV. Sarcoid Heart Disease. 320
Thomas N. James

Letters to the Editor: 329

News From The American Heart Association 335A

A.H.A. Special Report
Insurability and Employability of Young Cardiacs

Based Upon The Third Conference on Insurability and Employability of Young Cardiacs June, 1972, with revisions and updating March, 1976. Co-Chairmen: .....
James A. Manning, M.D., University of Rochester John J. Hutchinson, M.D., New York Life Insurance Company

CORRECTION: 239

Supplement With This Issue: Report From The Joint Study on the Natural History of Congenital Heart Defects

No. 3 (September)

Editorial:

Present Status of the ^{99m}Technetium Pyrophosphate Infarct Scintigram. 335
Melvin L. Marcus and Richard E. Kerber

Original Articles:

Influence of Mannitol on Maintaining Coronary Flows and Salvaging Myocardium during Ventriculotomy and during Prolonged Coronary Artery Ligation. 340
David E. Fixler, L. Maximilian Buja, James M. Wheeler, and James T. Willerson

Efficacy of Ambulatory Systemic Vasodilator Therapy with Oral Prazosin in Chronic Refractory Heart Failure: Concomitant Relief of Pulmonary Congestion and Elevation of Pump Output Demonstrated by Improvements in Symptomatology, Exercise Tolerance, Hemodynamics and Echocardiography. 346
Najam A. Awan, Richard R. Miller, Anthony N. DeMaria, Kevin S. Maxwell, Alexander Neumann, and Dean T. Mason

Effects of Digitalis on Resting and Isometric Exercise Myocardial Perfusion in Patients with Coronary Artery Disease and Left Ventricular Dysfunction. 355
Robert Vogel, Dennis Kirch, Michael LeFree, John Frischknecht, and Peter Steele

(Continued)

Serum Glycoproteins in Coronary Artery Disease. 359
Stuart Snyder, Eugene L. Coodley, Beatrice C. Durham, and Ronald S. Pennock

The Erysichthon Syndrome: Progression of Coronary Atherosclerosis and Dietary Hyperlipidemia. 363
David T. Nash, Goefredo Gensini, Howard Simon, Thomas Arno, and Stephen D. Nash

Arteriographic Evidence of Coronary Arterial Spasm in Acute Myocardial Infarction. 366
Philip B. Oliva and John C. Breckinridge

A Study of Left Ventricular Function in Coronary Patients Before and After Physical Training. 375
B. Letac, A. Cribier, and J. F. Desplanches

Immediate Effect of Contrast Medium Injection on Left Ventricular Volumes and Ejection Fraction: A Study Using Metallic Epicardial Markers. 379
Donald L. Vine, Theodore D. Hegg, Harold T. Dodge, Douglas K. Stewart, and Morris Frimer

Termination of Ventricular Tachycardia by an Increase in Cardiac Vagal Drive. 385
Menashe B. Waxman and Robert W. Wald

A Study of the Human Heart as a Multiple Dipole Source: IV. Left Ventricular Hypertrophy in the Presence of Right Bundle Branch Block. 391
John H. Holt, Jr., Anthony C. L. Barnard, and John O. Kramer, Jr.

Re-entrant Ventricular Arrhythmias in the Late Myocardial Infarction Period: 4. Mechanism of Action of Lidocaine. 395
Nabil El-Sherif, Benjamin J. Sherlag, Ralph Lazzara, and Ronald R. Hope

Sinoatrial Pacemaker Shift Following Atrial Stimulation in Man. 402
Gerhard Steinbeck and Berndt Lüderitz

Mechanisms of Spontaneous Alternation between Reciprocating Tachycardia and Atrial Flutter-Fibrillation in the Wolff-Parkinson-White Syndrome. 409
Ruey J. Sung, Agustin Castellanos, Stephen M. Mallon, Martin G. Bloom, Henry Gelband, and Robert J. Myerburg

Serial Electrocardiograms in Hypertensive Cardiovascular Disease. 416
Rosalie A. Dunn, Robert J. Zenner, and Hubert V. Pipberger

The Conduction System in Tricuspid Atresia With and Without Regular (d-)Transposition. 423
Saroja Bharati and Maurice Lev

Echocardiographic and Hemodynamic Relationships of Ejection Sounds. 430
Peter G. Mills, Bruce Brodie, Lambert McLaurin, Stewart Schall, and Ernest Craige

Limitations of the Echocardiogram in Diagnosing Valvular Vegetations in Patients with Mitral Valve Prolapse. 436
P.A.N. Chandraratna and E. Langevin

Echocardiography of Right Ventricular Tumors. 439
Thomas A. Ports, Nelson B. Schiller, and Brian L. Strunk

Two-dimensional Echocardiographic Findings in Atrial Septal Defect. 447
William Lieppe, Ralph Scallion, Victor S. Behar, and Joseph A. Kisslo

Evaluation of Left Ventricular Size and Function by Echocardiography: Results in Normal Children. 457
Howard P. Gutgesell, Marc Paquet, Desmond F. Duff, and Dan G. McNamara, with the technical assistance of Linda Kaufman

Human Ventricular Refractoriness: II. Effects of Procainamide. 462
John A. Kastor, Mark E. Josephson, Stephen B. Guss, and Leonard N. Horowitz

The Cardiovascular Effects of the Continuous Infusion of Dobutamine in Patients with Severe Cardiac Failure 468
Carl V. Leier, Jacob Webel, and Charles A. Bush

Systemic Collateral and Pulmonary Artery Stenosis in Patients with Congenital Pulmonary Valve Atresia and Ventricular Septal Defect. 473
Michael D. McGoon, Richard E. Fulton, George D. Davis, Donald G. Ritter, Catherine A. Neill, and Robert I. White, Jr.

The State of Cardiovascular Health Knowledge among Sixth, Seventh, and Eighth Grade Children. 480

News From The American Heart Association

A.H.A. Special Report 500A
Guidelines for Defibrillation in Infants and Children: Report of the American Heart Association Target Activity Group: Cardiopulmonary Resuscitation in the Young.
Leon Chameides, Grace E. Brown, John R. Raye, David I. Todres, and Peter H. Viles

Supplement With This Issue: Cardiovascular Surgery 1976

No. 4 (October)

Editorial:

The Evolution of Medical and Surgical Management of Acute Aortic Dissection. 503
Walter G. Wolfe and Jon F. Moran

Dickinson Richards Memorial Lecture:

New Vistas for Study of Structural and Functional Dynamics of the Heart, Lungs, and Circulation by Noninvasive Numerical Tomographic Vivisection. 506
Earl H. Wood

George A. Brown Memorial Lecture:

Carotid and Aortic Regulation of Arterial Blood Pressure. 521
Allen M. Scher

Original Articles:

Comparative Hemodynamic Effects of Inotropic and Vasodilator Drugs in Severe Heart Failure. 528
Esteban Mikulic, Jay N. Cohn, and Joseph A. Franciosa

The Influence of Heart Rate on Pulmonary Arterial-Left Ventricular Pressure Relationships at End-diastole. 533
Yale Enson, John A. Wood, Nordal B. Mantaras, and Réjane M. Harvey

Postextrasystolic Compliance of the Left Ventricle. 540
William H. Gaasch, Oscar H. L. Bing, James S. Cole, and Henry G. Hanley

Individualized Values for the Disappearance Rate Parameter (Kd) in the Enzymatic Estimation of Infarct Size: A Critique. 545
Arthur S. Slutsky

Accuracy of Treadmill Testing in Assessment of Direct Myocardial Revascularization. 548
David R. McConahay, Mariano Valdes, Ben D. McCallister, James E. Crockett, Robert D. Conn, William A. Reed, and Duncan A. Killen

Estimation of the Probability of Exercise-induced Ischemia By Quantitative ECG Analysis. 552
Maarten L. Simoons and Paul G. Hugenholtz

Mechanisms of Ischemic ST-Segment Displacement: Evaluation by Direct Current Recordings. 559
G. Michael Vincent, J. A. Abildskov, and Mary Jo Burgess

Sudden Death after Repair of Tetralogy of Fallot: Electrocardiographic and Electrophysiologic Abnormalities. 566
Paul C. Gillette, Mark A. Yeoman, Charles E. Mullins, and Dan G. McNamara

Electrophysiologic and Pharmacologic Characteristics of Automatic Ectopic Atrial Tachycardia. 571
Paul C. Gillette and Arthur Garson, Jr.

Doppler Echocardiography: Use of a Graphical Display System. 576
Gerald Lorch, Simeon Rubenstein, Donald Baker, Terryl Dooley, and Harold Dodge

Alteration of the Left Ventricular Pressure-Volume Relationship in Man and Its Effect on the Mitral Echocardiographic Early Diastolic Closure Slope. 586
Paul A. Vignola, Harriet J. Walker, Herman K. Gold, and Robert C. Leinbach

The Effect of Acute Changes in Coronary Blood Flow on Left Ventricular End-diastolic Wall Thickness: An Echocardiographic Study. 593
William H. Gaasch and Sheilah A. Bernard

A New, Noninvasive Technique for Inducing Post-extrasystolic Potentiation during Echocardiography. 598
Peter F. Cohn, Gerald H. Angoff, Paul M. Zoll, Laurence J. Sloss, John E. Markis, Thomas B. Graboys, Laurence H. Green, and Eugene Braunwald

Prediction of the Normal Blood Volume: Relation of Blood Volume to Body Habitus. 605
Joseph Feldschuh and Yale Enson

The Enlargement of Small Pulmonary Arteries by Preliminary Palliative Operations. 612
John W. Kirklin, L. M. Bargeron, Jr., and Albert D. Pacifico

The Pathology of Wear in the Beall Model 104 Heart Valve Prosthesis. 617
Malcolm D. Silver and Gregory J. Wilson

The Starr-Edwards Model 6000 Valve: A Fifteen-Year Follow-up of the First Successful Mitral Prosthesis. 623
Quentin Macmanus, Gary Grunkemeier, David Thomas, Louis E. Lambert, and Albert Starr

Noninvasive Detection and Quantification of Left-to-Right Shunts in Children Using Oxygen-15 Labeled Carbon Dioxide. 626
Dolores M. Tamer, Denny D. Watson, Peter J. Kenny, Warren R. Janowitz, Henry Gelband and Albert J. Gilson

Inhalation Imaging with Oxygen-15 Labeled Carbon Dioxide for Detection and Quantitation of Left-to-Right Shunts. 632
Charles A. Boucher, Bhagwat Ahluwalia, Peter C. Block, Gordon L. Brownell, and George A. Beller

Right and Left Heart Size and Function in Infants with Symptomatic Coarctation. 641
Thomas P. Graham, Jr., Gerald F. Atwood, Robert C. Boerth, Robert J. Boucek, Jr., and Clyde W. Smith

Lung Hypoplasia in Congenital Pulmonary Valve Stenosis. 647
Andre De Troyer, Jean-Claude Yernault, and Marc Englert

A Study of Instruments in Preparation for a Blood Pressure Survey of Children. 651
Larry S. Webber, A. Wouter Voors, Theda A. Foster, and Gerald S. Berenson

Estrogens and Experimental Atherosclerosis in the Baboon (papio cynocephalus) 657
Henry C. McGill, Jr., Leonard R. Axelrod, C. Alex McMahan, Herman S. Wigodsky, and Glen E. Mott

CIRCULATION

VOLUMES 55 AND 56

January-December, 1977

Report From The Joint Study On The Natural History Of Congenital Heart Defects

No. 1 (August)

FOREWORD
Shiela C. Mitchell I-1

I. GENERAL INTRODUCTION
Alexander S. Nadas I-3

II. METHODOLOGY
Olli S. Miettinen, John K. Rees I-5

III. INDIRECT ASSESSMENT OF SEVERITY
Introduction
William H. Weidman I-13
Indirect Assessment of Severity in Pulmonary Stenosis
R. Curtis Ellison, Robert M. Freedom, John F. Keane, Elizabeth W. Nugent, Richard D. Rowe, Olli S. Miettinen . I-14
Indirect Assessment of Severity in Aortic Stenosis
Henry R. Wagner, William H. Weidman, R. Curtis Ellison, Olli S. Miettinen I-20
Indirect Assessment of Severity in Ventricular Septal Defect
William H. Weidman, Welton M. Gersony, Elizabeth W. Nugent, James W. DuShane, Richard D. Rowe I-24
Summary and Conclusions
William H. Weidman I-34

IV. CLINICAL COURSE
Introduction
Alexander S. Nadas I-36
Clinical Course in Pulmonary Stenosis
Elizabeth W. Nugent, Robert M. Freedom, James J. Nora, R. Curtis Ellison, Richard D. Rowe, Alexander S. Nadas .. I-38

(Continued)

Clinical Course in Aortic Stenosis
Henry R. Wagner, R. Curtis Ellison, John F. Keane, J. O'Neal Humphries, Alexander S. Nadas I-47
Clinical Course in Ventricular Septal Defect
William H. Weidman, S. Gilbert Blount, Jr., James W. DuShane, Welton M. Gersony, Constance J. Hayes, Alexander S. Nadas I-56
Summary and Conclusions
Alexander S. Nadas I-70

V. OTHER TOPICS
Ventricular Septal Defect with Aortic Regurgitation
John F. Keane, William H. Plauth, Jr., Alexander S. Nadas I-72
Clinical Course in Adults with Ventricular Septal Defect
William H. Weidman, James W. DuShane, R. Curtis Ellison I-78
Comparison of Patients with Ventricular Septal Defect at High Altitude and Sea Level
S. Gilbert Blount, Jr. I-79
Aneurysm of the Membranous Septum in Ventricular Septal Defect
Elizabeth W. Nugent, Robert M. Freedom, Richard D. Rowe, Henry R. Wagner, John K. Rees I-82
Baterial Endocarditis in Patients with Pulmonary Stenosis, Aortic Stenosis, or Ventricular Septal Defect
Welton M. Gersony, Constance J. Hayes I-84

CARDIOVASCULAR SURGERY 1976

No. 2 (September)

Early Saphenous Vein Grafting After Subendocardial Infarction: Immediate Surgical Results and Late Prognosis
Niall P. Madigan, Barry D. Rutherford, Donald A. Barnhorst, and Gordon K. Danielson II-1
Reoperation Following Direct Myocardial Revascularization
Don C. Wukasch, Michele Toscano, Denton A. Cooley, George J. Reul, Jr., Frank M. Sandiford, E. Ross Kyger, III, and Grady L. Hallman II-3
Postoperative Investigation of Left Ventricular Aneurysm Resection
Richard C. Shaw, John P. Connors, Barry R. Hieb, Ronald Krone, Robert E. Kleiger, Thomas B. Ferguson, and Clarence S. Weldon II-7
Angiographic Predictors of Survival Following Left Ventricular Aneurysmectomy
Daniel Chia-Sen Lee, Robert Arnold Johnson, Charles A. Boucher, Laura F. Wexler, and M. Terry McEnany II-12
The Spectrum of Pathologic Changes in Aortocoronary Saphenous Vein Grafts
George E. Batayias, Joseph L. Barboriak, Michael E. Korns, and Karl Pintar .. II-18
The Saphenous Vein Versus Mammary Artery as a Coronary Bypass Graft
William W. Angell, and Alex Sywak II-22
Regional Ischemia Distal to a Critical Coronary Stenosis During Prolonged Fibrillation — Improvement With Pulsatile Perfusion
Hartzell V. Schaff, Robert C. Ciardullo, John T. Flaherty, Robert K. Brawley, and Vincent L. Gott II-25
Effects of Heart Rate Augmentation on Left Ventricular Volumes and Cardiac Output of the Transplanted Human Heart
Neil B. Ingels, Jr., Donald R. Ricci, George T. Daughters, II, Edwin L. Alderman, and Edward B. Stinson II-32
The Effect of Left Atrial-to-Aortic Assistance on Infarct Size
Hillel Laks, Richard A. Ott, John W. Standeven, John W. Hahn, Olga M. Blair, and Vallee L. Willman II-38

(Continued)

Reduction of Unexpected, Life-Threatening Events in Postoperative Cardiac Surgical Patients: the Role of Computerized Surveillance
Roy A. Jurado, Hillard L. Fitzkee, Richard A. De Asla, Salvador B. Lukban, Robert S. Litwak, and John J. Osborn II-44

Myocardial Injury Following Myocardial Revascularization: Detection by Isoenzyme Analysis
John E. Codd, Roberta G. Sullivan, Robert D. Weins, Hendrick B. Barner, George C. Kaiser, and V.L. Willman II-49

Incidence and Mortality of Perioperative Myocardial Infarction in Patients Undergoing Coronary Artery Bypass Grafting
Rene A. Langou, John C. Wiles, Peter W. Peduzzi, Graeme L. Hammond, and Lawrence S. Cohen II-54

Coronary Sinus Blood Flow and Sampling for Detection of Unrecognized Myocardial Ischemia and Injury
Richard J. Gray, Willard S. Harris, Prediman K. Shah, Alfonso T.M. Miyamoto, Jack M. Matloff, and H.J.C. Swan II-58

Left Ventricular Apical-Abdominal Aortic Conduits For Left Ventricular Outflow Tract Obstructions: Clinical Results in Eleven Patients with a Special Composite Prosthesis
John C. Norman, Denton A. Cooley, Grady L. Hallman, and Michael R. Nihill II-62

Long-Term Function of Aortic Homografts as the Right Ventricular Outflow Tract
Phillip N. West, Alexis F. Hartmann, Jr., and Clarence S. Weldon II-66

Late Results with Synthetic Valved External Conduits from Venous Ventricle to Pulmonary Arteries
Warren W. Bailey, John W. Kirklin, Lionel M. Bargeron, Jr., Albert D. Pacifico, and Nicholas T. Kouchoukos II-73

Ultrasound Evaluation of Abdominal Aortic Aneurysms
James D. Maloney, Peter C. Pairolero, Ballard F. Smith, Jr., Robert R. Hattery, Duane M. Brakke, John A. Spittell, Jr. II-80

Long-Term Results of the Mustard Procedure
Masato Takahashi, George G. Lindesmith, Alan B. Lewis, Quentin R. Stiles, Robert E. Stanton, Bert W. Meyer, and Paul R. Lurie II-85

Late Development of Severe Pulmonary Venous Obstruction Following the Mustard Operation
Michael A. Berman, Paul S. Barash, William E. Hellenbrand, H.C. Stansel, Jr., and Normal S. Talner II-91

Mitral Valve Replacement: Long-Term Evaluation of Prosthesis-Related Mortality and Morbidity
Neal W. Salomon, Edward B. Stinson, Randall B. Griepp, and Norman E. Shumway II-94

Mitral Valve Replacement in Medically Unresponsive Congestive Heart Failure Due to Papillary Muscle Dysfunction
Dietmar Gann, Cliff Colin, Frank J. Hildner, Philip Samet, William Z. Yahr, Charles Byrd, and J.J. Greenberg II-101

Hemodynamic Assessment of the Glutaraldehyde-Preserved Porcine Heterograft in the Aortic and Mitral Positions
Arthur J. Lurie, Richard R. Miller, Kevin S. Maxwell, Todd M. Grehl, Louis A. Vismara, Edward J. Hurley, and Dean T. Mason II-104

Heart Valve Replacement with the Hancock Bioprosthesis: Analysis of Long-Term Results
Pier Giuseppe Cévese, Vincenzo Gallucci, Mario Morea, Sergio Dalla Volta, Giuseppe Fasoli, and Dino Casarotto II-111

Valve Replacement in Children
Su-Chiung Chen, Hillel Laks, Leonard Fagan, David Terschluse, George Kaiser, Hendrick Barner, and Vallee L. Willman II-117

Clinical and Hemodynamic Results Following Triple Valve Replacement: Mechanical vs Porcine Xenograft Prostheses
Glen R. Rhodes, Charles L. McIntosh, David R. Redwood, Samuel B. Itscoitz, and Stephen E. Epstein II-122

Surgical Treatment of Idiopathic Hypertrophic Subaortic Stenosis (IHSS): Postoperative Results in 30 Patients Following Ventricular Septal Myotomy and Myectomy (Morrow Procedure)
Robert L. Reis, Hamner Hannah III, James E. Carley, and David M. Pugh II-128

(Continued)

Aortic Valve Replacement: A Ten-Year Follow-up of Non-Cloth-Covered Caged-Ball Prostheses
Albert Starr, Gary L. Grunkemeier, Louis E. Lambert, David R. Thomas, Shuichiro Sugimura, and Edward A. Lefrak II-133

Quantification of Wear, Hemolysis and Coagulation Deficits in Patients with Beall Mitral Valves
Richard E. Clark, Thomas A. Pavlovic, Barbara E. Knight, Stephen D. Burrows, Robert C. McKnight, Elmer B. Brown, and J. Heinrich Joist II-139

Effects of Membrane Stabilization on the Safety of Hypothermic Arrest After Aortic Cross-Clamping
Klaus Fey, David Follette, James Livesay, Roy Nelson, Helen Bugyi, Edward Deland, and Gerald D. Buckberg II-143

Optimal Conditions for Reperfusion During Cardiopulmonary Bypass
Richard M. Engelman, Sidney Levitsky, and Christopher R.C. Wyndham II-148

An Improved Method of Myocardial Protection with Pulsation During Cardiopulmonary Bypass
David Bregman, Frederick O. Bowman, Jr., Eduardo N. Parodi, Susan M. Haubert, Richard N. Edie, Henry M. Spotnitz, Keith Reemtsma, and James R. Malm II-157

Autopsy Study of Unoperated Abdominal Aortic Aneurysms: The Case For Early Resection
R. Clement Darling, Carlene R. Messina, David C. Brewster, and Leslie W. Ottinger II-161

Assessment of Abdominal Aortic Aneurysm Size
David C. Brewster, R. Clement Darling, J.K. Raines, R. Sarno, T.F. O'Donnell, M. Ezpeleta, and C. Athanasoulis II-164

Combined Aneurysmal and Occlusive Arterial Disease
Paul Nemir, Jr., and Mark S. Micozzi II-169

Large Vessel Impedance in Peripheral Atherosclerosis
David J. Farrar, George S. Malindzak, Jr., and George Johnson, Jr. II-171

VOLUMES 55 AND 56 JANUARY-DECEMBER, 1977

Subject Index to ABSTRACTS, AHA 50th Scientific Sessions, Supplement III, October 1977, is included in that issue.

SUPPLEMENT SUBJECT INDEX

Report From The Joint Study on the Natural History of Congenital Heart Defects — No. 1

CARDIOVASCULAR SURGERY — NO. 2

A

Admissibility criteria
Methodology, I-5
Aneurysm
Aneurysm of the membranous septum in ventricular septal defect, I-82
Assessment of abdominal aortic aneurysm size, II-164
Autopsy study of unoperated abdominal aortic aneurysms: the case for early resection, II-161
Combined aneurysmal and occlusive arterial disease, II-169
Postoperative investigation of left ventricular aneurysm resection, II-7
Ultrasound evaluation of abdominal aortic aneurysms, II-80
Angina pectoris
Early saphenous vein grafting after subendocardial infarction: immediate surgical results and late prognosis, II-1
Reoperation following direct myocardial revascularization, II-3
Angiography
Angiographic predictors of survival following left ventricular aneurysmectomy, II-12
Aorta
Aortic valve replacement: a ten-year follow-up of non-cloth-covered caged-ball prostheses, II-133
Assessment of abdominal aortic aneurysm size, II-164
Autopsy study of unoperated abdominal aortic aneurysms: the case for early resection, II-161
Combined aneurysmal and occlusive arterial disease, II-169
Effect of left atrial-to-aortic assistance on infarct size, II-38
Effects of membrane stabilization on the safety of hypothermic arrest after aortic cross-clamping, II-143
Long-term function of aortic homografts as the right ventricular outflow tract, II-66
Reoperation following direct myocardial revascularization, II-3
Ultrasound evaluation of abdominal aortic aneurysms, II-80
Aortic regurgitation
Bacterial endocarditis in patients with pulmonary stenosis, aortic stenosis, and ventricular septal defect, I-84
Clinical course in ventricular septal defect, I-56
Ventricular septal defect with aortic regurgitation, I-72
Aortic stenosis
Clinical course in aortic stenosis, I-47
Clinical course. Introduction, I-36
Clinical course. Summary and conclusions, I-70
Indirect assessment of severity in aortic stenosis, I-20
Indirect assessment of severity. Summary and conclusions, I-34
Aortic stenosis, congenital
Methodology, I-5
Aortic valve
Aortic valve replacement: a ten-year follow-up of non-cloth-covered caged-ball prostheses, II-133
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Artery, coronary
Angiographic predictors of survival following left ventricular aneurysmectomy, II-12
Incidence and mortality of perioperative myocardial infarction in patients undergoing coronary artery bypass grafting, II-54
Myocardial injury following myocardial revascularization: detection by isoenzyme analysis, II-49
Reoperation following direct myocardial revascularization, II-3
Saphenous vein versus mammary artery as a coronary bypass graft, II-22
Artery, femoral
Large vessel impedance in peripheral atherosclerosis, II-171
Artery, mammary
Saphenous vein versus mammary artery as a coronary bypass graft, II-22
Artery, pulmonary
Late results with synthetic valved external conduits from venous ventricle to pulmonary arteries, II-73
Long-term function of aortic homografts as the right ventricular outflow tract, II-66
Atherosclerosis
Large vessel impedance in peripheral atherosclerosis, II-171
Atresia, pulmonary
Late results with synthetic valved external conduits from venous ventricle to pulmonary arteries, II-73

B

Bacterial endocarditis
Bacterial endocarditis in patients with pulmonary stenosis, aortic stenosis, and ventricular septal defect, I-84
Clinical course in ventricular septal defect, I-56
Balloon pumping
Effect of left atrial-to-aortic assistance on infarct size, II-38
Improved method of myocardial protection with pulsation during cardiopulmonary bypass, II-157
Banding
Clinical course in ventricular septal defect, I-56
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79
Bivariate analysis
Indirect assessment of severity in pulmonary stenosis, I-14
Bypass surgery
Coronary sinus blood flow and sampling for detection of unrecognized myocardial ischemia and injury, II-58
Improved method of myocardial protection with pulsation during cardiopulmonary bypass, II-157

Incidence and mortality of perioperative myocardial infarction in patients undergoing coronary artery bypass grafting, II-54
Large vessel impedance in peripheral atherosclerosis, II-171
Mitral valve replacement in medically unresponsive congestive heart failure due to papillary muscle dysfunction, II-101
Myocardial injury following myocardial revascularization: detection by isoenzyme analysis, II-49
Optimal conditions for reperfusion during cardiopulmonary bypass, II-148
Regional ischemia distal to a critical coronary stenosis during prolonged fibrillation—improvement with pulsatile perfusion, II-25
Reoperation following direct myocardial revascularization, II-3
Saphenous vein versus mammary artery as a coronary bypass graft, II-22
Spectrum of pathologic changes in aortocoronary saphenous vein grafts, II-18

C

Cardiac output
Effects of heart rate augmentation on left ventricular volumes and cardiac output of the transplanted human heart, II-32
Left ventricular apical-abdominal aortic conduits for left ventricular outflow tract obstructions: clinical results in eleven patients with a special composite prosthesis, II-62
Circulatory assist device
Effect of left atrial-to-aortic assistance on infarct size, II-38
Improved method of myocardial protection with pulsation during cardiopulmonary bypass, II-157
Clinical indications of severity
Indirect assessment of severity in aortic stenosis, I-20
Coagulation
Quantification of wear, hemolysis and coagulation deficits in patients with Beall mitral valves, II-139
Complications, nonfatal surgery
Clinical course in aortic stenosis, I-47
Computerized analysis
Postoperative investigation of left ventricular aneurysm resection, II-7
Quantification of wear, hemolysis and coagulation deficits in patients with Beall mitral valves, II-139
Reduction of unexpected, life-threatening events in postoperative cardiac surgical patients: the role of computerized surveillance, II-44
Congenital disorders
Late development of severe pulmonary venous obstruction following the Mustard operation, II-91
Late results with synthetic valved external conduits from venous ventricle to pulmonary arteries, II-73
Long-term results of the Mustard procedure, II-85
Valve replacement in children, II-117
Congestive heart failure
Clinical course in aortic stenosis, I-47
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79
Mitral valve replacement in medically unresponsive congestive heart failure due to papillary muscle dysfunction, II-101
Postoperative investigation of left ventricular aneurysm resection, II-7
Coronary sinus blood flow
Coronary sinus blood flow and sampling for detection of unrecognized myocardial ischemia and injury, II-58
Cross-clamping
Effects of membrane stabilization on the safety of hypothermic arrest after aortic cross-clamping, II-143

D

Data acquisition
Methodology, I-5
Data, quantity of
Methodology, I-5
Death, postoperative
Clinical course in aortic stenosis, I-47
Drug therapy
Effects of membrane stabilization on the safety of hypothermic arrest after aortic cross-clamping, II-143
Incidence and mortality of perioperative myocardial infarction in patients undergoing coronary artery bypass grafting, II-54

E

Eisenmeyer's syndrome
Clinical course in ventricular septal defect, I-56
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79
Indirect assessment of severity in ventricular septal defect, I-24
Electrocardiography
Indirect assessment of severity in pulmonary stenosis, I-14
Indirect assessment of severity in ventricular septal defect, I-24
Methodology, I-5
Embolism
Combined aneurysmal and occlusive arterial disease, II-169
Embolization, complication of
Bacterial endocarditis in patients with pulmonary stenosis, aortic stenosis, and ventricular septal defect, I-84

F

Fibrillation
Optimal conditions for reperfusion during cardiopulmonary bypass, II-148
Regional ischemia distal to a critical coronary stenosis during prolonged fibrillation—improvement with pulsatile perfusion, II-25

G

Graft
Early saphenous vein grafting after subendocardial infarction: immediate surgical results and late prognosis, II-1
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Incidence and mortality of perioperative myocardial infarction in patients undergoing coronary artery bypass grafting, II-54
Long-term function of aortic homografts as the right ventricular outflow tract, II-66
Myocardial injury following myocardial revascularization: detection by isoenzyme analysis, II-49
Reoperation following direct myocardial revascularization, II-3
Saphenous vein versus mammary artery as a coronary bypass graft, II-22
Spectrum of pathologic changes in aortocoronary saphenous vein grafts, II-18

H

Heart block, complete
Clinical course in ventricular septal defect, I-56
Hemodynamic severity, measurement of
Indirect assessment of severity in pulmonary stenosis, I-14
Methodology, I-5
Hemolysis
Quantification of wear, hemolysis and coagulation deficits in patients with Beall mitral valves, II-139
Heterograft
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Homograft
Long-term function of aortic homografts as the right ventricular outflow tract, II-66

Hypertrophy, right ventricular
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79
Hypothermia
Effects of membrane stabilization on the safety of hypothermic arrest after aortic cross-clamping, II-143

I

Idiopathic hypertrophic subaortic stenosis
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128
Impedance
Large vessel impedance in peripheral atherosclerosis, II-171
Increased vascular resistance, infant characteristics with
Indirect assessment of severity in ventricular septal defect, I-24
Infarct size
Effect of left atrial-to-aortic assistance on infarct size, II-38
Infarction, subendocardial
Early saphenous vein grafting after subendocardial infarction: immediate surgical results and late prognosis, II-1
Ischemia
Coronary sinus blood flow and sampling for detection of unrecognized myocardial ischemia and injury, II-58
Effect of left atrial-to-aortic assistance on infarct size, II-38
Optimal conditions for reperfusion during cardiopulmonary bypass, II-148
Regional ischemia distal to a critical coronary stenosis during prolonged fibrillation—improvement with pulsatile perfusion, II-25
Isoenzyme analysis
Myocardial injury following myocardial revascularization: detection by isoenzyme analysis, II-49

J

Juvenile pattern
Indirect assessment of severity in pulmonary stenosis, I-14

K

Kolmogorov-Smirnov procedure
Methodology, I-5

L

Left ventricle
Effects of heart rate augmentation on left ventricular volumes and cardiac output of the transplanted human heart, II-32
Left ventricular apical-abdominal aortic conduits for left ventricular outflow tract obstructions: clinical results in eleven patients with a special composite prosthesis, II-62
Postoperative investigation of left ventricular aneurysm resection, II-7
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128

M

Marfan's syndrome
Valve replacement in children, II-117
Medical treatment results
Clinical course in aortic stenosis, I-47
Clinical course in pulmonary stenosis, I-38
Clinical course in ventricular septal defect, I-56
Ventricular septal defect with aortic regurgitation, I-72
Methods, statistical
Methodology, I-5
Mitral valve
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Mitral valve replacement in medically unresponsive congestive heart failure due to papillary muscle dysfunction, II-101
Mitral valve replacement: long-term evaluation of prosthesis related mortality and morbidity, II-94
Quantification of wear, hemolysis and coagulation deficits in patients with Beall mitral valves, II-139
Morrow procedure
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128
Multivariate analysis
Indirect assessment of severity in aortic stenosis, I-20
Indirect assessment of severity in pulmonary stenosis, I-14
Indirect assessment of severity in ventricular septal defect, I-24
Methodology, I-5
Mustard operation
Late development of severe pulmonary venous obstruction following the Mustard operation, II-91
Long-term results of the Mustard procedure, II-85
Myectomy
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128
Myocardial infarction
Coronary sinus blood flow and sampling for detection of unrecognized myocardial ischemia and injury, II-58
Incidence and mortality of perioperative myocardial infarction in patients undergoing coronary artery bypass grafting, II-54
Myocardial injury
Coronary sinus blood flow and sampling for detection of unrecognized myocardial ischemia and injury, II-58
Myocardial injury following myocardial revascularization: detection by isoenzyme analysis, II-49
Myotomy
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128

O

Oxygen measurements
Methodology, I-5

P

Pacing and pacemakers
Effects of heart rate augmentation on left ventricular volumes and cardiac output of the transplanted human heart, II-32
Papillary muscle dysfunction
Mitral valve replacement in medically unresponsive congestive heart failure due to papillary muscle dysfunction, II-101
Perfusion, linear
Regional ischemia distal to a critical coronary stenosis during prolonged fibrillation—improvement with pulsatile perfusion, II-25
Post-pericardiotomy syndrome
Clinical course in ventricular septal defect, I-56
Premedication
Methodology, I-5
Pressure gradients
Clinical course in aortic stenosis, I-47
Pressure measurements
Methodology, I-5
Priscoline
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79
Prostheses
Aortic valve replacement: a ten-year follow-up of non-cloth-covered caged-ball prostheses, II-133

Clinical and hemodynamic results following triple valve replacement: mechanical vs. porcine xenograft prostheses, II-122
Heart valve replacement with the Hancock bioprosthesis: analysis of long-term results, II-111
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Mitral valve replacement: long-term evaluation of prosthesis related mortality and morbidity, II-94
Quantification of wear, hemolysis and coagulation deficits in patients with Beall mitral valves, II-139

Pulmonary arterial hypertension
Indirect assessment of severity in ventricular septal defect, I-24

Pulmonary atresia
Late results with synthetic valved external conduits from venous ventricle to pulmonary arteries, II-73

Pulmonary insufficiency, measurement of
Clinical course in pulmonary stenosis, I-38

Pulmonary stenosis
Clinical course in pulmonary stenosis, I-38
Clinical course. Introduction, I-36
Clinical course. Summary and conclusions, I-70
Indirect assessment of severity in pulmonary stenosis, I-14
Indirect assessment of severity. Summary and conclusions, I-34
Methodology, I-5

Pulmonary vascular obstruction
Clinical course in ventricular septal defect, I-56
Indirect assessment of severity in ventricular septal defect, I-24

Pulmonary-to-systemic flow ratio
Indirect assessment of severity in ventricular septal defect, I-24

Pulmonary-to-systemic mean pressure ratio
Indirect assessment of severity in ventricular septal defect, I-24

Pulmonary-to-systemic resistance ratio
Clinical course in ventricular septal defect, I-56
Indirect assessment of severity in ventricular septal defect, I-24

Pulsatile perfusion
Regional ischemia distal to a critical coronary stenosis during prolonged fibrillation—improvement with pulsatile perfusion, II-25

Q

Quality control procedures
Methodology, I-5

R

Regurgitation
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128

Reperfusion
Optimal conditions for reperfusion during cardiopulmonary bypass, II-148

Right ventricle
Long-term function of aortic homografts as the right ventricular outflow tract, II-66

Right ventricular hypertrophy
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79

Right-to-left shunt
Clinical course in ventricular septal defect, I-56

Roger's type defect
Clinical course in ventricular septal defect, I-56

RSR pattern
Methodology, I-5

S

Septal defect, ventricular
Clinical course in adults with ventricular septal defect, I-78
Clinical course in ventricular septal defect, I-56
Clinical course. Introduction, I-36
Clinical course. Summary and conclusions, I-70
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79
Indirect assessment of severity in ventricular septal defect, I-24
Indirect assessment of severity. Summary and conclusions, I-34
Methodology, I-5
Ventricular septal defect with aortic regurgitation, I-72

Stenosis
Large vessel impedance in peripheral atherosclerosis, II-171
Left ventricular apical-abdominal aortic conduits for left ventricular outflow tract obstructions: clinical results in eleven patients with a special composite prosthesis, II-62
Regional ischemia distal to a critical coronary stenosis during prolonged fibrillation—improvement with pulsatile perfusion, II-25
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128

Stenosis, aortic
Clinical course in aortic stenosis, I-47
Clinical course. Introduction, I-36
Clinical course. Summary and conclusions, I-70
Indirect assessment of severity in aortic stenosis, I-20
Indirect assessment of severity. Summary and conclusions, I-34
Methodology, I-5

Stenosis, pulmonary
Clinical course in pulmonary stenosis, I-38
Clinical course. Introduction, I-36
Clinical course. Summary and conclusions, I-70
Indirect assessment of severity in pulmonary stenosis, I-14
Indirect assessment of severity. Summary and conclusions, I-34
Methodology, I-5

Surgical treatment results
Clinical course in aortic stenosis, I-47
Clinical course in pulmonary stenosis, I-38
Clinical course in ventricular septal defect, I-56
Ventricular septal defect with aortic regurgitation, I-72

Survival studies
Angiographic predictors of survival following left ventricular aneurysmectomy, II-12
Aortic valve replacement: a ten-year follow-up of non-cloth-covered caged-ball prostheses, II-133
Clinical and hemodynamic results following triple valve replacement: mechanical vs. porcine xenograft prostheses, II-122
Heart valve replacement with the Hancock bioprosthesis: analysis of long-term results, II-111
Long-term results of the Mustard procedure, II-85
Long-term function of aortic homografts as the right ventricular outflow tract, II-66
Mitral valve replacement: long-term evaluation of prosthesis related mortality and morbidity, II-94
Spectrum of pathologic changes in aortocoronary saphenous vein grafts, II-18

T

Thromboembolism
Aortic valve replacement: a ten-year follow-up of non-cloth-covered caged-ball prostheses, II-133
Mitral valve replacement: long-term evaluation of prosthesis related mortality and morbidity, II-94
Quantification of wear, hemolysis and coagulation deficits in patients with Beall mitral valves, II-139
Valve replacement in children, II-117

Transplantation
Effects of heart rate augmentation on left ventricular volumes and cardiac output of the transplanted human heart, II-32

Treatment guideline
Methodology, I-5

U

Ultrasound
Assessment of abdominal aortic aneurysm size, II-164
Ultrasound evaluation of abdominal aortic aneurysms, II-80
Univariate analysis
Indirect assessment of severity in aortic stenosis, I-20
Indirect assessment of severity in pulmonary stenosis, I-14
Indirect assessment of severity in ventricular septal defect, I-24

V

Valve replacement
Heart valve replacement with the Hancock bioprosthesis: analysis of long-term results, II-111
Valve, aortic
Aortic valve replacement: a ten-year follow-up of non-cloth-covered caged-ball prostheses, II-133
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Valve, mitral
Hemodynamic assessment of the glutaraldehyde-preserved porcine heterograft in the aortic and mitral positions, II-104
Mitral valve replacement in medically unresponsive congestive heart failure due to papillary muscle dysfunction, II-101
Mitral valve replacement: long-term evaluation of prosthesis related mortality and morbidity, II-94
Quantification of wear, hemolysis and coagulation deficits in patients with Beall mitral valves, II-139
Valved external conduits
Late results with synthetic valved external conduits from venous ventricle to pulmonary arteries, II-73
Valves
Clinical and hemodynamic results following triple valve replacement: mechanical vs. porcine xenograft prostheses, II-122
Heart valve replacement with the Hancock bioprosthesis: analysis of long-term results, II-111
Valve replacement in children, II-117
Vein, pulmonary
Late development of severe pulmonary venous obstruction following the Mustard operation, II-91
Vein, saphenous
Early saphenous vein grafting after subendocardial infarction: immediate surgical results and late prognosis, II-1
Saphenous vein versus mammary artery as a coronary bypass graft, II-22
Spectrum of pathologic changes in aortocoronary saphenous vein grafts, II-18
Ventricle, left
Effects of heart rate augmentation on left ventricular volumes and cardiac output of the transplanted human heart, II-32
Left ventricular apical-abdominal aortic conduits for left ventricular outflow tract obstructions: clinical results in eleven patients with a special composite prosthesis, II-62
Postoperative investigation of left ventricular aneurysm resection, II-7
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128
Ventricle, right
Long-term function of aortic homografts as the right ventricular outflow tract, II-66
Ventricular septal defect
Clinical course in adults with ventricular septal defect, I-78
Clinical course in ventricular septal defect, I-56
Clinical course. Introduction, I-36
Clinical course. Summary and conclusions, I-70
Comparison of patients with ventricular septal defect at high altitude and sea level, I-79
Indirect assessment of severity in ventricular septal defect, I-24
Indirect assessment of severity. Summary and conclusions, I-34
Methodology, I-5
Ventricular septal defect with aortic regurgitation, I-72
Ventricular septum
Aneurysm of the membranous septum in ventricular septal defect, I-82

W

Wolff-Parkinson-White syndrome
Surgical treatment of idiopathic hypertrophic subaortic stenosis: postoperative results in 30 patients following ventricular septal myotomy and myectomy (Morrow procedure), II-128

CIRCULATION

VOLUME 56 JULY-DECEMBER, 1977

SUBJECT INDEX

A

Acromegaly
Cardiac size and function in acromegaly, 863
Afterload
Preload, afterload, volume loading, pressure loading. Letter and response, 498
Alcohol
Alcohol consumption, cardiovascular risk factors, and mortality in two Chicago epidemiologic studies, 1067
Anastomosis
Pulmonary vascular disease complicating the Blalock-Taussig anastomosis, 124
Anemia
Consumption coagulopathy and microangiopathic hemolytic anemia with an axillo-femoral graft, 891
Aneurysm
LV aneurysms by M-mode echo. Letter, 130
Angina pectoris
Effect of increased free fatty acids on myocardial oxygen extraction and angina threshold during atrial pacing, 315
Angiocardiography
Assessment of cardiac performance with quantitative radionuclide angiocardiography: sequential left ventricular ejection fraction, normalized left ventricular ejection rate, and regional wall motion, 820
Angiography
Analysis of left ventricular function from multiple gated acquisition cardiac blood pool imaging. Comparison to contrast angiography, 1024
Angiographic determination of arterial patency after percutaneous catheterization in infants and small children, 102
Angled views in cineangiocardiography of congenital heart disease, 485
Correlation of angiographic estimates of myocardial infarct size and accumulated release of creatine kinase MB isoenzyme in man, 199
Cranial and caudal angulation for coronary angiography revisited, 119
Usual vs special angulated views. Letter and response, 332
Animal studies
Effect of methylprednisolone upon technetium-99m pyrophosphate assessment of myocardial necrosis in the canine countershock model, 1029
Effect of propranolol on canine myocardial CPK distribution space and rate of disappearance, 284
Effects of left ventricular load and contractility on mitral regurgitant orifice size and flow in the dog, 106
Estimation of stroke volume changes by ultrasonic Doppler, 914
Estrogens and experimental atherosclerosis in the baboon (*papio cynocephalus*), 657
Infarct size reduction by propranolol before and after coronary ligation in dogs, 794
Radiographic assessment of leaflet motion of Gore-Tex laminate trileaflet valves and Hancock xenograft in tricuspid position of dogs, 1053
Transthoracic ventricular defibrillation in the 100 kg calf with unidirectional rectangular pulses, 745
Wavefront phenomenon of ischemic cell death. 1. Myocardial infarct size vs duration of coronary occlusion in dogs, 786
"Reverse coronary steal" induced by coronary vasoconstriction following coronary artery occlusion in dogs, 809
Aorta
Aortic closure sound in pure aortic insufficiency, 859
Aortic valve in mid diastole. Letter, 690
De subitaneis mortibus. XXVII. Histological abnormalities in the sinus node, atrioventricular node and His bundle associated with coarctation of the aorta, 1094
George A. Brown Memorial Lecture: Carotid and aortic regulation of arterial blood pressure, 521
Hemodynamic results of aortic valvular replacement with the porcine xenograft valve, 841
Left ventricular function before and following aortic valve replacement, 944
Real-time cross-sectional echocardiographic diagnosis of coarctation of the aorta: a prospective study of echocardiographic-angiographic correlations, 762
Use of "fresh" unstented homograft valves for replacement of the aortic valve: analysis of 6½ years' experience, 837
Aortic dissection
Editorial: The evolution of medical and surgical management of acute aortic dissection, 503
Aortic insufficiency
Aortic closure sound in pure aortic insufficiency, 859
Arrhythmias
Exercise and VPCs. Letter and response, 1113
Mathematical model of parasystole and its application to clinical arrhythmias, 968
Re-entrant ventricular arrhythmias in the late myocardial infarction period. 3. Manifest and concealed extrasystolic grouping, 225
Re-entrant ventricular arrhythmias in the late myocardial infarction period: 4. Mechanism of action of lidocaine, 395
Surgical management of life-threatening ventricular arrhythmias in patients with coronary artery disease, 38
Arteriography
Arteriographic evidence of coronary arterial spasm in acute myocardial infarction, 366
Computers vs reality. Letter and response, 331
Coronary arteriography. Letter and response, 330
Correlation of coronary arteriograms and left ventriculograms with postmortem studies, 32
Editorial: Indications for coronary arteriography, 1
Myocardial imaging with thallium-201 at rest and during exercise: comparison with coronary arteriography and resting and stress electrocardiography, 66
Usual vs special angulated views. Letter, 332
Artery, carotid
George A. Brown Memorial Lecture: Carotid and aortic regulation of arterial blood pressure, 521
Artery, coronary
Arteriographic evidence of coronary arterial spasm in acute myocardial infarction, 366
Continued incorporation of circulating radio-labeled fibrinogen into preformed coronary artery thrombi, 213
Coronary arteriography. Letter and response, 330
Effect of acute coronary artery occlusion on subepicardial transmembrane potentials in the intact porcine heart, 217
Effects of digitalis on resting and isometric exercise myocardial perfusion in patients with coronary artery disease and left ventricular dysfunction, 355
Influence of mannitol on maintaining coronary flows and salvaging myocardium during ventriculotomy and during prolonged coronary artery ligation, 340
Mitral valve prolapse and coronary artery spasm. Letter, 329
Pulsed Doppler coronary artery catheter: preliminary report of a new technique for measuring rapid changes in coronary artery flow velocity in man, 18
Serum glycoproteins in coronary artery disease, 359
Artery, left anterior descending
Relationship between abnormal echocardiographic septal motion and myocardial perfusion in patients with significant obstruction of the left anterior descending artery, 780
Artery, left main coronary
Left main coronary artery lesions. Letter, 327
Usual vs special angulated views. Letter, 332

Artery, pulmonary
Enlargement of small pulmonary arteries by preliminary palliative operations, 612
Aschoff bodies
Aschoff bodies. Letter and response, 500
Asymmetric septal hypertrophy
Asymmetric septal hypertrophy and myocardial fiber disarray: features of normal, developing and malformed hearts, 292
Atherosclerosis
Erysichthon syndrome: progression of coronary atherosclerosis and dietary hyperlipidemia, 363
Estrogens and experimental atherosclerosis in the baboon (*papio cynocephalus*), 657
Athletics
Athletic echoes. Letter and response, 500
Atresia
Systemic collateral and pulmonary artery stenosis in patients with congenital pulmonary valve atresia and ventricular septal defect, 473
Atresia, tricuspid
Conduction system in tricuspid atresia with and without regular (d-)transposition, 423
Atrial fibrillation
Digitalis in the pre-excitation syndrome: analysis during atrial fibrillation, 260
Atrial flutter
Entrainment and interruption of atrial flutter with atrial pacing: studies in man following open heart surgery, 737
Mechanisms of spontaneous alternation between reciprocating tachycardia and atrial flutter-fibrillation in the Wolff-Parkinson-White syndrome, 409
Atrial pacing
Entrainment and interruption of atrial flutter with atrial pacing: studies in man following open heart surgery, 737
Atrial septal defect
Mechanism of splitting of the second heart sound in atrial septal defect, 1047
Two-dimensional echocardiographic findings in atrial septal defect, 447
Atrial stimulation
Determinants of atrioventricular nodal re-entrance with premature atrial stimulation in patients with dual A-V nodal pathways, 253
Sinoatrial pacemaker shift following atrial stimulation in man, 402
Atrioventricular nodal re-entry
Determinants of atrioventricular nodal re-entrance with premature atrial stimulation in patients with dual A-V nodal pathways, 253
Unusual variety of atrioventricular nodal re-entry due to retrograde dual atrioventricular nodal pathways, 50
Atrioventricular node
De subitaneis mortibus. XXVI. Fatal electrical instability of the heart associated with benign congenital polycystic tumor of the atrioventricular node, 667
De subitaneis mortibus. XXVII. Histological abnormalities in the sinus node, atrioventricular node and His bundle associated with coarctation of the aorta, 1094

B

Baboons
Estrogens and experimental atherosclerosis in the baboon (*papio cynocephalus*), 657
Bacterial endocarditis
A.H.A. special report: Prevention of bacterial endocarditis, 139A
Blalock-Taussig anastomosis
Pulmonary vascular disease complicating the Blalock-Taussig anastomosis, 124
Block, atrioventricular
A-V block. Letter, 689
Blood flow
Thallium-201 myocardial imaging before and after coronary revascularization: assessment of regional myocardial blood flow and graft patency, 830
Blood flow, coronary
Effect of acute changes in coronary blood flow on left ventricular end-diastolic wall thickness: an echocardiographic study, 593
Pulsed Doppler coronary artery catheter: preliminary report of a new technique for measuring rapid changes in coronary artery flow velocity in man, 18
Blood pool imaging
Analysis of left ventricular function from multiple gated acquisition cardiac blood pool imaging. Comparison to contrast angiography, 1024
Blood pressure
George A. Brown Memorial Lecture: Carotid and aortic regulation of arterial blood pressure, 521
Study of instruments in preparation for a blood pressure survey of children, 651
Blood volume
Measuring stroke volume noninvasively. Letter, 689
Prediction of the normal blood volume: relation of blood volume to body habitus, 605
Preload, afterload, volume loading, pressure loading. Letter and response, 498
Bundle branch block
ECG criteria for BBB. Letter and response, 127
Longitudinal dissociation in the His bundle. Bundle branch block due to asynchronous conduction within the His bundle in man, 996
Prognostic value of infranodal conduction time in patients with chronic bundle branch block, 240
Study of the human heart as a multiple dipole source: IV. Left ventricular hypertrophy in the presence of right bundle branch block, 391
Bypass, coronary artery
Myocardial consequences of coronary artery bypass graft surgery. The paradox of necrosis in areas of revascularization, 906

C

Cardiac failure
Comparative responses to dobutamine nitroprusside in patients with chronic low output cardiac failure, 918
Cardiac malposition
Cardiac malpositions: an overview based on study of sixty-five necropsy specimens, 159
Cardiac size
Cardiac size and function in acromegaly, 863
Cardiac vagal drive
Termination of ventricular tachycardia by an increase in cardiac vagal drive, 385
Cardiomyopathy
Echo and cardiomyopathy. Letter and response, 132
Cardiovascular disease
Serial electrocardiograms in hypertensive cardiovascular disease, 416
Cardiovascular function
Cardiovascular function during early recovery from acute myocardial infarction, 931
Catheterization
Angiographic determination of arterial patency after percutaneous catheterization in infants and small children, 102
The ICHD and HEW on cath lab criteria. Letter, 690
Catheterization, coronary artery
Pulsed Doppler coronary artery catheter: preliminary report of a new technique for measuring rapid changes in coronary artery flow velocity in man, 18
Children
A.H.A. special report: Guidelines for defibrillation in infants and children. Report of the A.H.A. Target Activity Group: Cardiopulmonary resuscitation in the young, 502A

Angiographic determination of arterial patency after percutaneous catheterization in infants and small children, 102
Comparison of the cardiocirculatory effects of exercise and isoproterenol in children with pulmonary or aortic valve stenosis, 79
Dose-response relation of diazoxide in children with hypertension, 1062
Echocardiographic evaluation of fixed left ventricular outlet obstruction in children: pre and postoperative assessment of ventricular systolic pressures, 299
Electrocardiographic recognition of sinus node dysfunction in children and young adults, 235
Evaluation of left ventricular size and function by echocardiography: results in normal children, 457
Noninvasive detection and quantification of left-to-right shunts in children using oxygen-15 labeled carbon dioxide, 626
Right and left heart size and function in infants with symptomatic coarctation, 641
State of cardiovascular health knowledge among sixth, seventh, and eighth grade children, 480
Study of instruments in preparation for a blood pressure survey of children, 651
Utility of contrast echocardiographic techniques in the care of critically ill infants with cardiac and pulmonary disease, 959

Cineangiography
Angled views in cineangiocardiography of congenital heart disease, 485
Axial cineangiography in congenital heart disease. Section I. Concept, technical and anatomic considerations, 1075
Axial cineangiography in congenital heart disease. Section II. Specific lesions, 1084

Circulation
Aging gracefully in *Circulation*. Letter, 1112
Keeping an eye on *Circulation*. Letter, 1112

Clofibrate
Effect of clofibrate on intravascular coagulation in hyperlipoproteinemia, 114

Closure sound
Aortic closure sound in pure aortic insufficiency, 859

Coagulation
Effect of clofibrate on intravascular coagulation in hyperlipoproteinemia, 114

Coarctation
De subitaneis mortibus. XXVII. Histological abnormalities in the sinus node, atrioventricular node and His bundle associated with coarctation of the aorta, 1094
Paradoxical hypertension in postop coarctation patients. Letter and response, 135, 136
Real-time cross-sectional echocardiographic diagnosis of coarctation of the aorta: a prospective study of echocardiographic-angiographic correlations, 762
Right and left heart size and function in infants with symptomatic coarctation, 641

Coitus
Post MI exercise training and coitus. Letter and response, 688

Collapse, cardiopulmonary
Improved outcome for prehospital cardiopulmonary collapse with resuscitation by bystanders, 901

Computer analysis
Computers vs reality. Letter and response, 331

Conduction
Cardiac innervation and conduction abnormalities. Letter, 127
Conduction system in tricuspid atresia with and without regular (d-)transposition, 423

Conduction time, infranodal
Prognostic value of infranodal conduction time in patients with chronic bundle branch block, 240

Conduction, asynchronous
Longitudinal dissociation in the His bundle. Bundle branch block due to asynchronous conduction within the His bundle in man, 996

Conduction, sinoatrial
Sinus node recovery time and calculated sinoatrial conduction time in normal subjects and patients with sinus node dysfunction, 43

Congenital disorders
Angled views in cineangiocardiography of congenital heart disease, 485
Asymmetric septal hypertrophy and myocardial fiber disarray: features of normal, developing and malformed hearts, 292
Axial cineangiography in congenital heart disease. Section I. Concept, technical and anatomical considerations, 1075
Axial cineangiography in congenital heart disease. Section II. Specific lesions, 1084
Congenital heart block in newborns of mothers with connective tissue disease, 82
Congenital mitral stenosis. A review of 20 years' experience, 1039
Congenitally complete heart block: developmental aspects, 90
Cross-sectional echocardiography in the diagnosis of congenital heart disease: identification of the relation of the ventricles and great arteries, 267
De subitaneis mortibus. XXVI. Fatal electrical instability of the heart associated with benign congenital polycystic tumor of the atrioventricular node, 667
Editorial: Terminology of congenital heart disease: glossary and commentary, 139
Familial congenital complete heart block and maternal systemic lupus erythematosis, 1103
Lung hypoplasia in congenital pulmonary valve stenosis, 647

Congestion, pulmonary
Efficacy of ambulatory systemic vasodilator therapy with oral prazosin in chronic refractory heart failure: concomitant relief of pulmonary congestion and elevation of pump output demonstrated by improvements in symptomatology, exercise tolerance, hemodynamics and echocardiography, 346

Congestive heart failure
Chronic congestive heart failure after repair of tetralogy of Fallot, 305
Evolution of peripartal heart failure in Zaria, Nigeria. Some etiologic factors, 1058

Conjoined twins
Conjoined thoracopagus twins, 491

Connective tissue disease
Congenital heart block in newborns of mothers with connective tissue disease, 82

Contraction, ventricular
Contractile state of the left ventricle in man as evaluated from end-systolic pressure-volume relations, 845
Predictive implications of ventricular premature contractions associated with treadmill stress testing, 985

Contrast medium
Immediate effect of contrast medium injection on left ventricular volumes and ejection fraction: a study using metallic epicardial markers, 379
Utility of contrast echocardiographic techniques in the care of critically ill infants with cardiac and pulmonary disease, 959

Coronary artery disease
Effects of digitalis on resting and isometric exercise myocardial perfusion in patients with coronary artery disease and left ventricular dysfunction, 355
Effects of ergonovine in patients with and without coronary artery disease, 803
New criteria to enhance the predictability of coronary artery disease by exercise testing in asymptomatic subjects, 799
Relationship between plasma lipid concentrations and coronary artery disease in 496 patients, 875
Serum glycoproteins in coronary artery disease, 359
Surgical management of life-threatening ventricular arrhythmias in patients with coronary artery disease, 38

Coronary blood flow
Cyclical reduction in coronary flow. Letter and response, 333
Influence of mannitol on maintaining coronary flows and salvag-

ing myocardium during ventriculotomy and during prolonged coronary artery ligation, 340

Coronary heart disease
Diagnostic value of history and maximal exercise electrocardiography in men and women suspected of coronary heart disease, 756
False positives on diagnostic tests for CHD. Letter, 134

Coronary revascularization
Coronary neovascularity and fistula formation: a sign of mural thrombus, 663
Coronary revascularization in patients maintained on chronic hemodialysis, 684

Countershock model
Effect of methylprednisolone upon technetium-99m pyrophosphate assessment of myocardial necrosis in the canine countershock model, 1029

Creatine kinase
Norrelation of angiographic estimates of myocardial infarct size and accumulated release of creatine kinase MB isoenzyme in man, 199

Creatine phosphokinase
Effect of propranolol on canine myocardial CPK distribution space and rate of disappearance, 284
Serial serum CPK determinations to evaluate therapy in AMI. Letter and response, 130

D

Defibrillation
A.H.A. special report: Guidelines for defibrillation in infants and children. Report of the A.H.A. Target Activity Group: Cardiopulmonary resuscitation in the young, 502A
Transthoracic ventricular defibrillation in the 100 kg calf with unidirectional rectangular pulses, 745

Degeneration, myocytolytic
Clinicopathologic study of persistently positive technetium-99m stannous pyrophosphate myocardial scintigrams and myocytolytic degeneration after myocardial infarction, 1016

Diagnostic procedures
Assessing acute MI. Letter and response, 896
Computers vs reality. Letter and response, 331
False positives on diagnostic tests for CHD. Letter, 134
Measuring stroke volume noninvasively. Letter, 689

Diazoxide
Dose-response relation of diazoxide in children with hypertension, 1062

Digitalis
Digitalis after AMI. Letter and response, 898
Digitalis and VF. Letter and response, 1112, 1113
Digitalis in the pre-excitation syndrome: analysis during atrial fibrillation, 260
Effects of digitalis on resting and isometric exercise myocardial perfusion in patients with coronary artery disease and left ventricular dysfunction, 355

Diphenylhydantoin
Modification and abolition of re-entry within the His-Purkinje system in man by diphenylhydantoin, 720

Disappearance rate parameter
Individualized values for the disappearance rate parameter (Kd) in the enzymatic estimation of infarct size: a critique, 545

Dobutamine
Cardiovascular effects of the continuous infusion of dobutamine in patients with severe cardiac failure, 468
Comparative responses to dobutamine nitroprusside in patients with chronic low output cardiac failure, 918

Drug therapy
Cardiovascular effects of the continuous infusion of dobutamine in patients with severe cardiac failure, 468
Comparative hemodynamic effects of inotropic and vasodilator drugs in severe heart failure, 528
Comparative responses to dobutamine nitroprusside in patients with chronic low output cardiac failure, 918
Dose-response relation of diazoxide in children with hypertension, 1062
Effect of mannitol following permanent coronary occlusion, 1006
Effects of ergonovine in patients with and without coronary artery disease, 803
Electrophysiological studies with multiple drugs in patients with atrioventricular re-entrant tachycardias utilizing an extranodal pathway, 727
Heparin. Letter and response, 327, 328
Human ventricular refractoriness: II. Effects of procainamide, 462
Hydralazine therapy. Letter and response, 329
Infarct size reduction by propranolol before and after coronary ligation in dogs, 794
Influence of reduction of preload and afterload by nitroglycerin on left ventricular diastolic pressure-volume relations and relaxation in man, 937
Suppression of ventricular ectopic depolarizations by tocainide, 980
Vasodilators in VSDs. Letter and response, 329, 330

Dual A-V nodal pathways
Determinants of atrioventricular nodal re-entrance with premature atrial stimulation in patients with dual A-V nodal pathways, 253
Unusual variety of atrioventricular nodal re-entry due to retrograde dual atrioventricular nodal pathways, 50

E

Echocardiography
Alteration of the left ventricular pressure-volume relationship in man and its effect on the mitral echocardiographic early diastolic closure slope, 586
Athletic echoes. Letter and response, 500
Cross-sectional echocardiography in the diagnosis of congenital heart disease: identification of the relation of the ventricles and great arteries, 267
Cross-sectional echocardiographic visualization of the stenotic pulmonary valve, 769
Echo and cardiomyopathy. Letter and response, 132
Echo ICT. Letter and response, 128
Echocardiographic and hemodynamic relationships of ejection sounds, 430
Echocardiographic assessment of a normal adult aging population, 273
Echocardiographic evaluation of fixed left ventricular outlet obstruction in children: pre and postoperative assessment of ventricular systolic pressures, 299
Echocardiographic measurement of right ventricular wall thickness: a new application of subxiphoid echocardiography, 278
Echocardiographic study of cardiac tamponade, 951
Echocardiography of right ventricular tumors, 439
Effect of acute changes in coronary blood flow on left ventricular end-diastolic wall thickness: an echocardiographic study, 593
Efficacy of ambulatory systemic vasodilator therapy with oral prazosin in chronic refractory heart failure: concomitant relief of pulmonary congestion and elevation of pump output demonstrated by improvements in symptomatology, exercise tolerance, hemodynamics and echocardiography, 346
Evaluation of left ventricular size and function by echocardiography: results in normal children, 457
Limitations of the echocardiogram in diagnosing valvular vegetations in patients with mitral valve prolapse, 436
LV aneurysms by M-mode echo. Letter, 130
New, noninvasive technique for inducing post-extrasystolic potentiation during echocardiography, 598
Real-time cross-sectional echocardiographic diagnosis of coarctation of the aorta: a prospective study of echocardiographic-angiographic correlations, 762
Relationship between abnormal echocardiographic septal motion and myocardial perfusion in patients with significant obstruction of the left anterior descending artery, 780

Right ventricular compression as a sign of cardiac tamponade: an analysis of echocardiographic ventricular dimensions and their clinical implications, 774
Terminal ECGs. Letter, 129
Two-dimensional echocardiographic findings in atrial septal defect, 447
Usual vs special angulated views. Letter and response, 332
Utility of contrast echocardiographic techniques in the care of critically ill infants with cardiac and pulmonary disease, 959

Echocardiography, Doppler technique
Differentiation of ventricular septal defects from mitral regurgitation by pulsed Doppler echocardiography, 14
Doppler echocardiography: use of a graphical display system, 576
Estimation of stroke volume changes by ultrasonic Doppler, 914
Pulsed Doppler coronary artery catheter: preliminary report of a new technique for measuring rapid changes in coronary artery flow velocity in man, 18

Ectopic depolarization
Suppression of ventricular ectopic depolarizations by tocainide, 980

Education
State of cardiovascular health knowledge among sixth, seventh, and eighth grade children, 480

Ejection fraction
Assessment of cardiac performance with quantitative radionuclide angiocardiography: sequential left ventricular ejection fraction, normalized left ventricular ejection rate, and regional wall motion, 820
Immediate effect of contrast medium injection on left ventricular volumes and ejection fraction: a study using metallic epicardial markers, 379

Ejection sounds
Echocardiographic and hemodynamic relationships of ejection sounds, 430

Electrical instability
De subitaneis mortibus. XXVI. Fatal electrical instability of the heart associated with benign congenital polycystic tumor of the atrioventricular node, 667

Electrocardiography
Diagnostic value of history and maximal exercise electrocardiography in men and women suspected of coronary heart disease, 756
ECG criteria for BBB. Letter and response, 127
Effect of electrode area on V ECG. Letter and response, 131
Electrocardiographic recognition of sinus node dysfunction in children and young adults, 235
Estimation of the probability of exercise-induced ischemia by quantitative ECG analysis, 552
Induction of iatrogenic electrocardiographic patterns during electrophysiologic studies, 60
Influence of constitutional variables on orthogonal electrocardiograms of normal women, 989
Serial electrocardiograms in hypertensive cardiovascular disease, 416
Sudden death after repair of tetralogy of Fallot: electrocardiographic and electrophysiologic abnormalities, 566

Electrography
Comparison of unipolar and bipolar electrograms for cardiac pacemaker sensing, 750
Myocardial imaging with thallium-201 at rest and during exercise: comparison with coronary arteriography and resting and stress electrocardiography, 66

Electrophysiologic studies
Electrophysiologic and pharmacologic characteristics of automatic ectopic atrial tachycardia, 571
Electrophysiological studies with multiple drugs in patients with atrioventricular re-entrant tachycardias utilizing an extranodal pathway, 727
Induction of iatrogenic electrocardiographic patterns during electrophysiologic studies, 60
Sudden death after repair of tetralogy of Fallot: electrocardiographic and electrophysiologic abnormalities, 566
Tetralogy of Fallot: postoperative electrophysiologic studies, 713

Endocarditis, bacterial
A.H.A. special report: Prevention of bacterial endocarditis, 139A

Epicardial markers
Immediate effect of contrast medium injection on left ventricular volumes and ejection fraction: a study using metallic epicardial markers, 379

Epidemiology
Alcohol consumption, cardiovascular risk factors, and mortality in two Chicago epidemiologic studies, 1067
Study of instruments in preparation for a blood pressure survey of children, 651

Ergonovine
Effects of ergonovine in patients with and without coronary artery disease, 803

Erysichthon syndrome
Erysichthon syndrome: progression of coronary atherosclerosis and dietary hyperlipidemia, 363

Exercise tests
Accuracy of treadmill testing in assessment of direct myocardial revascularization, 548
Comparison of the cardiocirculatory effects of exercise and isoproterenol in children with pulmonary or aortic valve stenosis, 79
Diagnostic value of history and maximal exercise electrocardiography in men and women suspected of coronary heart disease, 756
Effects of digitalis on resting and isometric exercise myocardial perfusion in patients with coronary artery disease and left ventricular dysfunction, 355
Efficacy of ambulatory systemic vasodilator therapy with oral prazosin in chronic refractory heart failure: concomitant relief of pulmonary congestion and elevation of pump output demonstrated by improvements in symptomatology, exercise tolerance, hemodynamics and echocardiography, 346
Estimation of the probability of exercise-induced ischemia by quantitative ECG analysis, 552
Exercise stress testing, 699
Exercise testing. Letter and response, 137
Exercise testing soon after myocardial infarction, 26
How to use the exercise test in perspective in practice. Letter, 894
Left precordial isopotential mapping during supine exercise, 245
Myocardial imaging with thallium-201 at rest and during exercise: comparison with coronary arteriography and resting and stress electrocardiography, 66
New criteria to enhance the predictability of coronary artery disease by exercise testing in asymptomatic subjects, 799
Predictive implications of ventricular premature contractions associated with treadmill stress testing, 985
Stress testing and the ST segment. Letter and response, 328

Exercise training
Athletic echoes. Letter and response, 500
Effect of training on myocardial oxygen supply/demand balance, 289
Exercise and VPC. Letter and response, 1113
Post MI exercise training and coitus. Letter and response, 688
Study of left ventricular function in coronary patients before and after physical training, 375

Extranodal pathways
Electrophysiological studies with multiple drugs in patients with atrioventricular re-entrant tachycardias utilizing an extranodal pathway, 727

Extrasystoles
New, noninvasive technique for inducing post-extrasystolic potentiation during echocardiography, 598
Postextrasystolic compliance of the left ventricle, 540
Re-entrant ventricular arrhythmias in the late myocardial infarction period. 3. Manifest and concealed extrasystolic grouping, 225

F

Fibrillation, atrial
Presystolic murmur in atrial fibrillation. Letters, 133, 134
Fibrillation, ventricular
Digitalis and VF. Letter and response, 1112, 1113
Fibrosis
Methylsergide-induced heart disease: a case of multivalvular and myocardial fibrosis, 889
Fistula
Coronary neovascularity and fistula formation: a sign of mural thrombus, 663
Follow-up studies
Evolution of peripartal heart failure in Zaria, Nigeria. Some etiologic factors, 1058
Starr-Edwards model 6000 valve: a fifteen-year follow-up of the first successful mitral prosthesis, 623
Free fatty acids
Effect of increased free fatty acids on myocardial oxygen extraction and angina threshold during atrial pacing, 315

G

Glycoproteins, serum
Serum glycoproteins in coronary artery disease, 359
Graft
Consumption coagulopathy and microangiopathic hemolytic anemia with an axillo-femoral graft, 891
Thallium-201 myocardial imaging before and after coronary revascularization: assessment of regional myocardial blood flow and graft patency, 830

H

Heart block
Congenital heart block in newborns of mothers with connective tissue disease, 82
Congenitally complete heart block: developmental aspects, 90
Familial congenital complete heart block and maternal systemic lupus erythematosis, 1103
Heart murmurs
Editorial: Insurability and employability: congenital heart disease and innocent murmurs, 143
Presystolic murmur in atrial fibrillation. Letters, 133, 134
Heart rate
Influence of heart rate on pulmonary arterial-left ventricular pressure relationships at end-diastole, 533
Heart size
Right and left heart size and function in infants with symptomatic coarctation, 641
Heart, small arteries of
George E. Brown Memorial Lecture: Small arteries of the heart, 2
Hemodialysis
Coronary revascularization in patients maintained on chronic hemodialysis, 684
Heparin
Heparin. Letter and response, 327, 328
His bundle
De subitaneis mortibus. XXVII. Histological abnormalities in the sinus node, atrioventricular node and His bundle associated with coarctation of the aorta, 1094
Longitudinal dissociation in the His bundle. Bundle branch block due to asynchronous conduction within the His bundle in man, 996
His-Purkinje system
Modification and abolition of re-entry within the His-Purkinje system in man by diphenylhydantoin, 720
Hydralazine
Hydralazine therapy. Letter and response, 329
Hyperlipidemia
Erysichthon syndrome: progression of coronary atherosclerosis and dietary hyperlipidemia, 363
Hyperlipoproteinemia
Effect of clofibrate on intravascular coagulation in hyperlipoproteinemia, 114
Hypertension
Dose-response relation of diazoxide in children with hypertension, 1062
Paradoxical hypertension in postop coarctation patients. Letter and response, 135, 136
Serial electrocardiograms in hypertensive cardiovascular disease, 416
Urinary kallikrein in normal renin essential hypertension, 856
Hypertension, arterial
International Lecture: Neural regulation of renin release: experimental evidence and clinical implications in arterial hypertension, 691
Hypertension, pulmonary
Clinical primary pulmonary hypertension: three pathologic types, 884
Hypertrophy
Asymmetric septal hypertrophy and myocardial fiber disarray: features of normal, developing and malformed hearts, 292
Study of the human heart as a multiple dipole source: IV. Left ventricular hypertrophy in the presence of right bundle branch block, 391
Hypoplasia, lung
Lung hypoplasia in congenital pulmonary valve stenosis, 647

I

Infarct size
Calculating infarct size. Letter and response, 688
Individualized values for the disappearance rate parameter (Kd) in the enzymatic estimation of infarct size: a critique, 545
Infarct size reduction by propranolol before and after coronary ligation in dogs, 794
Infarct sizing controversy. Letter and response, 896, 897
Wavefront phenomenon of ischemic cell death. 1. Myocardial infarct size vs duration of coronary occlusion in dogs, 786
Inhalation imaging
Inhalation imaging with oxygen-15 labeled carbon dioxide for detection and quantitation of left-to-right shunts, 632
Innervation, cardiac
Cardiac innervation and conduction abnormalities. Letter, 127
Instrumentation
Study of instruments in preparation for a blood pressure survey of children, 651
Insurance
A.H.A. Special Report: Insurability and employability of young cardiacs based upon the Third Conference on Insurability and Employability of Young Cardiacs, June, 1972, with revisions and updating March, 1976, 335A
Editorial: Insurability and employability: congenital heart disease and innocent murmurs, 143
Ischemia
Estimation of the probability of exercise-induced ischemia by quantitative ECG analysis, 552
Mechanisms of ischemic ST-segment displacement: evaluation by direct current recordings, 559
Regional myocardial perfusion during ischemia. Letter and response, 1111
Wavefront phenomenon of ischemic cell death. 1. Myocardial infarct size vs duration of coronary occlusion in dogs, 786
Isoproterenol
Comparison of the cardiocirculatory effects of exercise and isoproterenol in children with pulmonary or aortic valve stenosis, 79
Isosorbide dinitrate, effects of
Hemodynamics and antianginal effects of high dose oral isosorbide dinitrate after chronic use, 205

K

Kallikrein, urinary
Urinary kallikrein in normal renin essential hypertension, 856

L

Left ventricle
Abnormal left ventricular contraction pattern in the systolic click-late systolic murmur syndrome, 311
Alteration of the left ventricular pressure-volume relationship in man and its effect on the mitral echocardiographic early diastolic closure slope, 586
Analysis of left ventricular function from multiple gated acquisition cardiac blood pool imaging. Comparison to contrast angiography, 1024
Assessment of cardiac performance with quantitative radionuclide angiocardiography: sequential left ventricular ejection fraction, normalized left ventricular ejection rate, and regional wall motion, 820
Contractile state of the left ventricle in man as evaluated from end-systolic pressure-volume relations, 845
Effect of acute changes in coronary blood flow on left ventricular end-diastolic wall thickness: an echocardiographic study, 593
Effects of digitalis on resting and isometric exercise myocardial perfusion in patients with coronary artery disease and left ventricular dysfunction, 355
Effects of left ventricular load and contractility on mitral regurgitant orifice size and flow in the dog, 106
Evaluation of left ventricular size and function by echocardiography: results in normal children, 457
Immediate effect of contrast medium injection on left ventricular volumes and ejection fraction: a study using metallic epicardial markers, 379
Influence of heart rate on pulmonary arterial-left ventricular pressure relationships at end-diastole, 533
Influence of reduction of preload and afterload by nitroglycerin on left ventricular diastolic pressure-volume relations and relaxation in man, 937
Left ventricular function before and following aortic valve replacement, 944
LV aneurysms by M-mode echo. Letter, 130
Postextrasystolic compliance of the left ventricle, 540
Study of left ventricular function in coronary patients before and after physical training, 375
Study of the human heart as a multiple dipole source: IV. Left ventricular hypertrophy in the presence of right bundle branch block, 391

Left ventricular outlet obstruction
Echocardiographic evaluation of fixed left ventricular outlet obstruction in children: pre and postoperative assessment of ventricular systolic pressures, 299

Lesions
Left main coronary artery lesions. Letter, 327

Lidocaine
Re-entrant ventricular arrhythmias in the late myocardial infarction period: 4. Mechanism of action of lidocaine, 395

Ligation, coronary
Infarct size reduction by propranolol before and after coronary ligation in dogs, 794
Influence of mannitol on maintaining coronary flows and salvaging myocardium during ventriculotomy and during prolonged coronary artery ligation, 340

Lipids
Relationship between plasma lipid concentrations and coronary artery disease in 496 patients, 875

Load
Influence of reduction of preload and afterload by nitroglycerin on left ventricular diastolic pressure-volume relations and relaxation in man, 937
Preload, afterload, volume loading, pressure loading. Letter and response, 498

Lung hypoplasia
Lung hypoplasia in congenital pulmonary valve stenosis, 647

Lupus erythematosis
Familial congenital complete heart block and maternal systemic lupus erythematosis, 1103

M

Mannitol
Effect of mannitol following permanent coronary occlusion, 1006
Influence of mannitol on maintaining coronary flows and salvaging myocardium during ventriculotomy and during prolonged coronary artery ligation, 340

Mapping
Left precordial isopotential mapping during supine exercise, 245

Medical education
Attributes of the general internist, the subspecialist in internal medicine and guidelines for training in cardiovascular disease, 691A

Methylprednisolone
Effect of methylprednisolone upon technetium-99m pyrophosphate assessment of myocardial necrosis in the canine countershock model, 1029

Methylsergide
Methylsergide-induced heart disease: a case of multivalvular and myocardial fibrosis, 889

Mitral orifice size and flow
Effects of left ventricular load and contractility on mitral regurgitant orifice size and flow in the dog, 106

Mitral valve prolapse
Esophageal left atrial pulse in mitral valve prolapse. Letter, 1114
Limitations of the echocardiogram in diagnosing valvular vegetations in patients with mitral valve prolapse, 436
Mean velocity of circumferential fiber shortening in prolapsed mitral leaflet syndrome, 853
Mitral valve prolapse and coronary artery spasm. Letter, 329
Type A WPW and mitral valve prolapse. Letter, 136

Mitral valve prosthesis
Starr-Edwards model 6000 valve: a fifteen-year follow-up of the first successful mitral prosthesis, 623

Mural thrombus
Coronary neovascularity and fistula formation: a sign of mural thrombus, 663

Murmurs
Editorial: Insurability and employability: congenital heart disease and innocent murmurs, 143

Myocardial imaging
Myocardial imaging with thallium-201 at rest and during exercise: comparison with coronary arteriography and resting and stress electrocardiography, 66

Myocardial infarction
Application of radionuclide infarct scintigraphy to diagnose perioperative myocardial infarction following revascularization, 173
Arteriographic evidence of coronary arterial spasm in acute myocardial infarction, 366
Assessing acute MI. Letter and response, 896
Cardiovascular function during early recovery from acute myocardial infarction, 931
Clinicopathologic study of persistently positive technetium-99m stannous pyrophosphate myocardial scintigrams and myocytolytic degeneration after myocardial infarction, 1016
Correlation of angiographic estimates of myocardial infarct size and accumulated release of creatine kinase MB isoenzyme in man, 199
Digitalis after AMI. Letter and response, 898
Effects of digitalis on resting and isometric exercise myocardial perfusion in patients with coronary artery disease and left ventricular dysfunction, 355
Exercise testing soon after myocardial infarction, 26
Follow-up technetium-99m stannous pyrophosphate myocardial scintigrams after acute myocardial infarction, 181

Location and size of acute transmural myocardial infarction estimated from thallium-201 scintiscans: a clinicopathological study, 72
MI with normal coronaries. Letter, 128
Post MI exercise training and coitus. Letter and response, 688
Prognostic efficacy of early clinical categorization of myocardial infarction patients, 816
Re-entrant ventricular arrhythmias in the late myocardial infarction period. 3. Manifest and concealed extrasystolic grouping, 225
Re-entrant ventricular arrhythmias in the late myocardial infarction period: 4. Mechanism of action of lidocaine, 395
Serial serum CPK determinations to evaluate therapy in AMI. Letter and response, 130
Technetium-99m stannous pyrophosphate myocardial scintigraphy: reliability and limitations in assessment of acute myocardial infarction, 192
Myocardial oxygen
Effect of increased free fatty acids on myocardial oxygen extraction and angina threshold during atrial pacing, 315
Effect of training on myocardial oxygen supply/demand balance, 289
Myocardial perfusion
Regional myocardial perfusion during ischemia. Letter and response, 1111
Relationship between abnormal echocardiographic septal motion and myocardial perfusion in patients with significant obstruction of the left anterior descending artery, 780
Myocardium
Asymmetric septal hypertrophy and myocardial fiber disarray: features of normal, developing and malformed hearts, 292
Myxoma
Right ventricular myxoma and valvular pulmonic stenosis. Letter and response, 895

N

Necrosis
Effect of methylprednisolone upon technetium-99m pyrophosphate assessment of myocardial necrosis in the canine countershock model, 1029
Myocardial consequences of coronary artery bypass graft surgery. The paradox of necrosis in areas of revascularization, 906
Neural regulation
International Lecture: Neural regulation of renin release: experimental evidence and clinical implications in arterial hypertension, 691
Nitroglycerin
Influence of reduction of preload and afterload by nitroglycerin on left ventricular diastolic pressure-volume relations and relaxation in man, 937
Nitroprusside
Comparative responses to dobutamine nitroprusside in patients with chronic low output cardiac failure, 918

O

Occlusion, arterial
Effect of acute coronary artery occlusion on subepicardial transmembrane potentials in the intact porcine heart, 217
Occlusion, coronary
Effect of mannitol following permanent coronary occlusion, 1006
Wavefront phenomenon of ischemic cell death. 1. Myocardial infarct size vs duration of coronary occlusion in dogs, 786
Occlusion, coronary artery
"Reverse coronary steal" induced by coronary vasoconstriction following coronary artery occlusion in dogs, 809
Open-heart surgery
Entrainment and interruption of atrial flutter with atrial pacing: studies in man following open heart surgery, 737
Outlet obstruction, left ventricular
Echocardiographic evaluation of fixed left ventricular outlet obstruction in children: pre and postoperative assessment of ventricular systolic pressures, 299
Oxygen
Effect of increased free fatty acids on myocardial oxygen extraction and angina threshold during atrial pacing, 315
Effect of training on myocardial oxygen supply/demand balance, 289

P

Pacing and pacemakers
Comparison of unipolar and bipolar electrograms for cardiac pacemaker sensing, 750
Effect of increased free fatty acids on myocardial oxygen extraction and angina threshold during atrial pacing, 315
Entrainment and interruption of atrial flutter with atrial pacing: studies in man following open heart surgery, 737
Inhibiting bipolar pacemakers. Letter and response, 895
Inhibition of bipolar demand pacemaker by diaphragmatic myopotentials, 679
Sinoatrial pacemaker shift following atrial stimulation in man, 402
Parasystole
Mathematical model of parasystole and its application to clinical arrhythmias, 968
Patency, arterial
Angiographic determination of arterial patency after percutaneous catheterization in infants and small children, 102
Perfusion, myocardial
Regional myocardial perfusion during ischemia. Letter and response, 1111
Pericardial disease
Occult constrictive pericardial disease. Diagnosis by rapid volume expansion and correction by pericardiectomy, 924
Pericardiectomy
Occult constrictive pericardial disease. Diagnosis by rapid volume expansion and correction by pericardiectomy, 924
Peripartal heart failure
Evolution of peripartal heart failure in Zaria, Nigeria. Some etiologic factors, 1058
Pharmacologic characteristics
Electrophysiologic and pharmacologic characteristics of automatic ectopic atrial tachycardia, 571
Plasma
Relationship between plasma lipid concentrations and coronary artery disease in 496 patients, 875
Postmortem studies
Cardiac malpositions: an overview based on study of sixty-five necropsy specimens, 159
Correlation of coronary arteriograms and left ventriculograms with postmortem studies, 32
Terminal ECGs. Letter, 129
Prazosin
Efficacy of ambulatory systemic vasodilator therapy with oral prazosin in chronic refractory heart failure: concomitant relief of pulmonary congestion and elevation of pump output demonstrated by improvements in symptomatology, exercise tolerance, hemodynamics and echocardiography, 346
Pre-excitation syndrome
Digitalis in the pre-excitation syndrome: analysis during atrial fibrillation, 260
Preload
Preload, afterload, volume loading, pressure loading. Letter and response, 498
Pressure-volume relation
Preload, afterload, volume loading, pressure loading. Letter, 498
Pressure-volume relationship
Alteration of the left ventricular pressure-volume relationship in man and its effect on the mitral echocardiographic early diastolic closure slope, 586
Contractile state of the left ventricle in man as evaluated from end-systolic pressure-volume relations, 845

Influence of reduction of preload and afterload by nitroglycerin on left ventricular diastolic pressure-volume relations and relaxation in man, 937
Preload, afterload, volume loading, pressure loading. Letter and response, 498
Procainamide
Human ventricular refractoriness: II. Effects of procainamide, 462
Prolapsed mitral leaflet syndrome
Mean velocity of circumferential fiber shortening in prolapsed mitral leaflet syndrome, 853
Propranolol
Effect of propranolol on canine myocardial CPK distribution space and rate of disappearance, 284
Infarct size reduction by propranolol before and after coronary ligation in dogs, 794
Prostheses
Pathology of wear in the Beall model 104 heart valve prosthesis, 617
Starr-Edwards model 6000 valve: a fifteen-year follow-up of the first successful mitral prosthesis, 623
Pulmonary artery
Influence of heart rate on pulmonary arterial-left ventricular pressure relationships at end-diastole, 533
Pulmonary disease
Utility of contrast echocardiographic techniques in the care of critically ill infants with cardiac and pulmonary disease, 959
Pulmonary vascular disease
Pulmonary vascular disease complicating the Blalock-Taussig anastomosis, 124
Pulmonary venous return
Anomalous pulmonary venous return with intact atrial septum: diagnosis and pathophysiology, 870

R

Radiography
Radiographic assessment of leaflet motion of Gore-Tex laminate trileaflet valves and Hancock xenograft in tricuspid position of dogs, 1053
Radiology
Axial cineangiography in congenital heart disease. Section I. Concept, technical and anatomical considerations, 1075
Axial cineangiography in congenital heart disease. Section II. Specific lesions, 1084
Re-entry
Electrophysiological studies with multiple drugs in patients with atrioventricular re-entrant tachycardias utilizing an extranodal pathway, 727
Modification and abolition of re-entry within the His-Purkinje system in man by diphenylhydantoin, 720
Refractoriness, ventricular
Human ventricular refractoriness: II. Effects of procainamide, 462
Regurgitation, mitral
Differentiation of ventricular septal defects from mitral regurgitation by pulsed Doppler echocardiography, 14
Effects of left ventricular load and contractility on mitral regurgitant orifice size and flow in the dog, 106
Renin
International Lecture: Neural regulation of renin release: experimental evidence and clinical implications in arterial hypertension, 691
Urinary kallikrein in normal renin essential hypertension, 856
Resuscitation
A.H.A. special report: Guidelines for defibrillation in infants and children. Report of the A.H.A. Target Activity Group: Cardiopulmonary resuscitation in the young, 502A
Improved outcome for prehospital cardiopulmonary collapse with resuscitation by bystanders, 901
Revascularization
Application of radionuclide infarct scintigraphy to diagnose perioperative myocardial infarction following revascularization, 173
Myocardial consequences of coronary artery bypass graft surgery. The paradox of necrosis in areas of revascularization, 906
Revascularization, coronary
Coronary revascularization in patients maintained on chronic hemodialysis, 684
Thallium-201 myocardial imaging before and after coronary revascularization: assessment of regional myocardial blood flow and graft patency, 830
Revascularization, myocardial
Accuracy of treadmill testing in assessment of direct myocardial revascularization, 548
Reverse coronary steal
"Reverse coronary steal" induced by coronary vasoconstriction following coronary artery occlusion in dogs, 809
Rheumatic fever
Aschoff bodies. Letter and response, 500
Right ventricle
Echocardiographic measurement of right ventricular wall thickness: a new application of subxiphoid echocardiography, 278
Echocardiography of right ventricular tumors, 439
Right ventricular compression as a sign of cardiac tamponade: an analysis of echocardiographic ventricular dimensions and their clinical implications, 774
Right ventricular myxoma and valvular pulmonic stenosis. Letter and response, 895
Risk factors
A.H.A. Special Report: Insurability and employability of young cardiacs based upon the Third Conference on Insurability and Employability of Young Cardiacs, June, 1972, with revisions and updating March, 1976, 335A
Alcohol consumption, cardiovascular risk factors, and mortality in two Chicago epidemiologic studies, 1067
Editorial: Insurability and employability: congenital heart disease and innocent murmurs, 143

S

Sarcoid heart disease
De subitaneis mortibus: XXV. Sarcoid heart disease, 320
Scintigraphy
Application of radionuclide infarct scintigraphy to diagnose perioperative myocardial infarction following revascularization, 173
Clinicopathologic study of persistently positive technetium-99m stannous pyrophosphate myocardial scintigrams and myocytolytic degeneration after myocardial infarction, 1016
Editorial: present status of the ^{99m}technetium pyrophosphate infarct scintigram, 335
Location and size of acute transmural myocardial infarction estimated from thallium-201 scintiscans: a clinicopathological study, 72
Technetium-99m stannous pyrophosphate myocardial scintigraphy: reliability and limitations in assessment of acute myocardial infarction, 192
Second heart sound
Mechanism of splitting of the second heart sound in atrial septal defect, 1047
Septal defect, atrial
Mechanism of splitting of the second heart sound in atrial septal defect, 1047
Septal defect, ventricular
Systemic collateral and pulmonary artery stenosis in patients with congenital pulmonary valve atresia and ventricular septal defect, 473
Vasodilators in VSDs. Letter and response, 329, 330
Septal motion
Relationship between abnormal echocardiographic septal motion

and myocardial perfusion in patients with significant obstruction of the left anterior descending artery, 780
Septum, atrial
Anomalous pulmonary venous return with intact atrial septum: diagnosis and pathophysiology, 870
Serum glycoproteins
Serum glycoproteins in coronary artery disease, 359
Sexual activity
Post MI exercise training and coitus. Letter and response, 688
Shunt
Inhalation imaging with oxygen-15 labeled carbon dioxide for detection and quantitation of left-to-right shunts, 632
Noninvasive detection and quantification of left-to-right shunts in children using oxygen-15 labeled carbon dioxide, 626
Sinus node
De subitaneis mortibus. XXVII. Histological abnormalities in the sinus node, atrioventricular node and His bundle associated with coarctation of the aorta, 1094
Electrocardiographic recognition of sinus node dysfunction in children and young adults, 235
Sinus node recovery time and calculated sinoatrial conduction time in normal subjects and patients with sinus node dysfunction, 43
Spasm
Arteriographic evidence of coronary arterial spasm in acute myocardial infarction, 366
Mitral valve prolapse and coronary artery spasm. Letter, 329
ST segment
Causes of ST-segment elevation. Letter and response, 499
Mechanisms of ischemic ST-segment displacement: evaluation by direct current recordings, 559
Stress testing and the ST segment. Letter and response, 328
Stenosis
Computers vs reality. Letter and response, 331
Systemic collateral and pulmonary artery stenosis in patients with congenital pulmonary valve atresia and ventricular septal defect, 473
Stenosis, aortic
Comparison of the cardiocirculatory effects of exercise and isoproterenol in children with pulmonary or aortic valve stenosis, 79
Stenosis, mitral
Congenital mitral stenosis. A review of 20 years' experience, 1039
Stenosis, pulmonary
Comparison of the cardiocirculatory effects of exercise and isoproterenol in children with pulmonary or aortic valve stenosis, 79
Cross-sectional echocardiographic visualization of the stenotic pulmonary valve, 769
Lung hypoplasia in congenital pulmonary valve stenosis, 647
Right ventricular myxoma and valvular pulmonic stenosis. Letter and response, 895
Stenosis, subaortic
Discrete membranous subaortic stenosis. Report of 31 patients, review of the literature, and delineation in management, 1034
Stroke volume
Measuring stroke volume noninvasively. Letter, 689
Estimation of stroke volume changes by ultrasonic Doppler, 914
Sudden death
De subitaneis mortibus. XXVI. Fatal electrical instability of the heart associated with benign congenital polycystic tumor of the atrioventricular node, 667
De subitaneis mortibus. XXVII. Histological abnormalities in the sinus node, atrioventricular node and His bundle associated with coarctation of the aorta, 1094
Sudden death after repair of tetralogy of Fallot: electrocardiographic and electrophysiologic abnormalities, 566
Systolic click-late systolic murmur syndrome
Abnormal left ventricular contraction pattern in the systolic click-late systolic murmur syndrome, 311
Systolic pressure
Echocardiographic evaluation of fixed left ventricular outlet obstruction in children: pre and postoperative assessment of ventricular systolic pressures, 299
Systolic time intervals
Critical review of the systolic time intervals, 146

T

Tachycardia
Electrophysiologic and pharmacologic characteristics of automatic ectopic atrial tachycardia, 571
Electrophysiological studies with multiple drugs in patients with atrioventricular re-entrant tachycardias utilizing an extranodal pathway, 727
Mechanisms of spontaneous alternation between reciprocating tachycardia and atrial flutter-fibrillation in the Wolff-Parkinson-White syndrome, 409
Termination of ventricular tachycardia by an increase in cardiac vagal drive, 385
Tamponade, cardiac
Echocardiographic study of cardiac tamponade, 951
Right ventricular compression as a sign of cardiac tamponade: an analysis of echocardiographic ventricular dimensions and their clinical implications, 774
Technetium-99m
Clinicopathologic study of persistently positive technetium-99m stannous pyrophosphate myocardial scintigrams and myocytolytic degeneration after myocardial infarction, 1016
Editorial: present status of the ^{99m}technetium pyrophosphate infarct scintigram, 335
Effect of methylprednisolone upon technetium-99m pyrophosphate assessment of myocardial necrosis in the canine countershock model, 1029
Follow-up technetium-99m stannous pyrophosphate myocardial scintigrams after acute myocardial infarction, 181
Technetium-99m stannous pyrophosphate myocardial scintigraphy: reliability and limitations in assessment of acute myocardial infarction, 192
Terminology
Editorial: Terminology of congenital heart disease: glossary and commentary, 139
Tetralogy of Fallot
Chronic congestive heart failure after repair of tetralogy of Fallot, 305
Sudden death after repair of tetralogy of Fallot: electrocardiographic and electrophysiologic abnormalities, 566
Tetralogy of Fallot: postoperative electrophysiologic studies, 713
Thallium-201
Extraction of thallium-201 by the myocardium, 188
Location and size of acute transmural myocardial infarction estimated from thallium-201 scintiscans: a clinicopathological study, 72
Myocardial imaging with thallium-201 at rest and during exercise: comparison with coronary arteriography and resting and stress electrocardiography, 66
Thallium-201 myocardial imaging before and after coronary revascularization: assessment of regional myocardial blood flow and graft patency, 830
Thoracopagous twins
Conjoined thoracopagus twins, 491
Thrombi
Continued incorporation of circulating radio-labeled fibrinogen into preformed coronary artery thrombi, 213
Coronary neovascularity and fistula formation: a sign of mural thrombus, 663
Tocainide
Suppression of ventricular ectopic depolarizations by tocainide, 980
Tomography
Dickinson Richards Memorial Lecture: New vistas for study of structural and functional dynamics of the heart, lungs, and circulation by noninvasive numerical tomographic vivisection, 506

Transmembrane potentials
Effect of acute coronary artery occlusion on subepicardial transmembrane potentials in the intact porcine heart, 217
Transposition
Truncus arteriosus communis. Unusual case associated with transposition, 1107
Truncus arteriosus communis
Truncus arteriosus communis. Unusual case associated with transposition, 1107
Tumor
De subitaneis mortibus. XXVI. Fatal electrical instability of the heart associated with benign congenital polycystic tumor of the atrioventricular node, 667
Tumors, right ventricle
Echocardiography of right ventricular tumors, 439
Twins
Conjoined thoracopagus twins, 491

U

Urinary kallikrein
Urinary kallikrein in normal renin essential hypertension, 856

V

Valve
Radiographic assessment of leaflet motion of Gore-Tex laminate trileaflet valves and Hancock xenograft in tricuspid position of dogs, 1053
Valve, aortic
Aortic valve in mid diastole. Letter, 690
Valve, heart prostheses
Pathology of wear in the Beall model 104 heart valve prosthesis, 617
Starr-Edwards model 6000 valve: a fifteen-year follow-up of the first successful mitral prosthesis, 623
Valve, mitral
Limitations of the echocardiogram in diagnosing valvular vegetations in patients with mitral valve prolapse, 436
Mean velocity of circumferential fiber shortening in prolapsed mitral leaflet syndrome, 853
Valve, pulmonary
Cross-sectional echocardiographic visualization of the stenotic pulmonary valve, 769
Valve atresia
Systemic collateral and pulmonary artery stenosis in patients with congenital pulmonary valve atresia and ventricular septal defect, 473
Valve replacement
Hemodynamic results of aortic valvular replacement with the porcine xenograft valve, 841
Left ventricular function before and following aortic valve replacement, 944
Use of "fresh" unstented homograft valves for replacement of the aortic valve: analysis of 6½ years' experience, 837
Vasoconstriction, coronary
"Reverse coronary steal" induced by coronary vasoconstriction following coronary artery occlusion in dogs, 809
Vasodilator therapy
Efficacy of ambulatory systemic vasodilator therapy with oral prazosin in chronic refractory heart failure: concomitant relief of pulmonary congestion and elevation of pump output demonstrated by improvements in symptomatology, exercise tolerance, hemodynamics and echocardiography, 346
Vasodilators in VSDs. Letter and response, 329, 330
Vasospasm
Arteriographic evidence of coronary arterial spasm in acute myocardial infarction, 366
Mitral valve prolapse and coronary artery spasm. Letter, 329
Ventricle, ectopic depolarization
Suppression of ventricular ectopic depolarizations by tocainide, 980
Ventricular fibrillation
Digitalis and VF. Letter and response, 1112, 1113
Ventricular premature beats
Exercise and VPCs. Letter and response, 1113
Ventricular refractoriness
Human ventricular refractoriness: II. Effects of procainamide, 462
Ventricular septal defect
Differentiation of ventricular septal defects from mitral regurgitation by pulsed Doppler echocardiography, 14
Vasodilators in VSDs. Letter and response, 329, 330
Ventricular volume
Immediate effect of contrast medium injection on left ventricular volumes and ejection fraction: a study using metallic epicardial markers, 379
Ventriculography
Correlation of coronary arteriograms and left ventriculograms with postmortem studies, 32
Ventriculotomy
Influence of mannitol on maintaining coronary flows and salvaging myocardium during ventriculotomy and during prolonged coronary artery ligation, 340

W

Wall motion
Assessment of cardiac performance with quantitative radionuclide angiocardiography: sequential left ventricular ejection fraction, normalized left ventricular ejection rate, and regional wall motion, 820
Wall thickness, left ventricular
Effect of acute changes in coronary blood flow on left ventricular end-diastolic wall thickness: an echocardiographic study, 593
Wall thickness, right ventricular
Echocardiographic measurement of right ventricular wall thickness: a new application of subxiphoid echocardiography, 278
Wavefront phenomenon
Wavefront phenomenon of ischemic cell death. I. Myocardial infarct size vs duration of coronary occlusion in dogs, 786
Wolff-Parkinson-White syndrome
Mechanisms of spontaneous alternation between reciprocating tachycardia and atrial flutter-fibrillation in the Wolff-Parkinson-White syndrome, 409
Type A WPW and mitral valve prolapse. Letter, 136
